

# THE NORTHWEST MONTHLY

Published Monthly by the Northwest School of Agriculture of the University of Minnesota, Crookston. Entered as second class matter, December 2, 1916, at the Post Office at Crookston, Minnesota, under the Act of August 24, 1912.

VOL. IX.

CROOKSTON, MINNESOTA, MARCH, APRIL, 1925.

NOS. 4, 5.

## SEVENTEENTH ANNUAL COMMENCEMENT EXERCISES

The seventeenth annual Commencement was held from March 21 to March 26. Sixty-six graduates made up the list of seniors and advanced students.

A number of music recitals preceded events of Commencement week and were given by students in voice, piano and violin. Over one hundred students have been enrolled in special music classes during the year.

The annual field meet March 21 was won by the juniors with a score of 91. The freshmen were second with a score of 83 and seniors third with 41 points.

The Commencement sermon was given by Rev. C. H. McCrae, of the Methodist church of Crookston, and the exercises were held in the Methodist church. His subject was "Who's Who in the State of Prosperity."

On Monday evening the annual declamatory contest among the boys' societies was won by Wallace Miller, Roseau, first, for the Pioneers, and Robert Davids, Bagley, second, for the Lincolns. In the girls' society declamatory contest, Helen Gibbons, Crookston, won first place representing the Home Economics society, while Frances Lindahl, Hallock, of the Sanford Club, won second place.

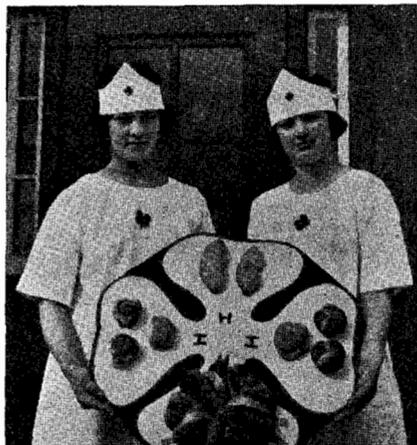

The annual reception given by Superintendent and Mrs. C. G. Selvig Tuesday evening proved to be the usual interesting evening. On Wednesday night a concert recital was given by the glee clubs, choruses and advanced music students. This was followed by a one-act play, "The Maker of Dreams," under the direction of Miss Simley, of the English department.

Thursday was Commencement day. At assembly the girls of the sewing classes exhibited a display of the work done during the year. This was followed by the get-together dinner in the dining hall. At that time awards were made in stock judging to the freshmen team. Melvin Flaskerud, Fosston, was awarded the prize in the blacksmithing contest. Basketball letters and bars were awarded Allen Gandrud, Detroit, Captain; James Hanson, Cass Lake; Cecil Bergh, Halstad; Ernest Thompson, Fosston; Joe Skatvold, Twin Valley; Oscar Forseth, Halstad; Harry Hanson, Karlstad; Einar Loven,

Gatzke; Elmer Krogstad, Fertile, and Frank Groves, Bemidji. Special music and appropriate stunts were on the program.

At the Senior Class exercises Thursday afternoon, Elmer Miller presided. Miss Schenck extended greetings to all. At this time the class key was presented to the Juniors and the Seniors gave their history, prophecy and will. The Class Advisor address was by O. M. Kiser.

At the Commencement program two demonstrations were presented. Einar Ellertson, Drayton, North Dakota. (Continued on Page 3)

HELEN GIBBONS CORA WALTERS

### WILL ATTEND THE STATE FAIR

Two Northwest School girls will again receive a free trip to the Minnesota State Fair this fall. Helen Gibbons, Crookston and Cora Walters, Beltrami, representing Polk county, won first place in the advanced breadmaking contest for Northwestern Minnesota. The other teams competing were from Warren, Fergus Falls, Glyndon, Hawley and Bemidji. The contests were judged by Mrs. Genevieve Meybohm, assistant state club leader, University Farm, St. Paul. Miss Mildred Schenck, instructor in the home economics department at the Northwest School, coached the winning team. At the State Fair, Helen and Cora will compete with teams from the other districts for the state championship.

### ALUMNI TO MEET JUNE 26

A summer meeting to be held on the campus of the Northwest school some time in the latter part of June is being planned by a special committee named at the annual meeting of the Alumni association held in connection with the Winter Shows at Crookston in February.

While a definite date has not been decided on this is expected to be set soon and arrangements made for an event, which it is hoped, will draw hundreds of alumni from all parts of the Northwest.

The summer meeting will give alumni a chance to get together and greet old school chums and pals at a time of the year when the campus is at its loveliest. A large number of alumni, according to C. G. Selvig, superintendent, have never had an opportunity to view the school and experiment station in summer and to find out just what is being accomplished there. The summer meeting will give them this opportunity.

The committee has obtained assurances from Mr. Selvig of the hearty co-operation of the school staff in putting over this alumni day and is seeking the cooperation of alumni to make it a complete success.

The tentative program planned will probably be announced in the next issue of the Northwest Monthly. In the meantime keep it in mind and if you have any ideas regarding the event send them to the committee, which consists of Thorval Tunheim, chairman, Warren; Nels M. Engen, Warren, and Paul Engelstad, Thief River Falls.

### SCHOLARSHIP AWARDS

Ten Caleb Dorr scholarships in the amount of \$75.00 each will be awarded this fall to boys and girls who have made exceptional records in club work. This money may be used for paying expenses incurred in attendance at the Northwest School.

A committee of the faculty will make recommendations to the Board of Regents regarding these awards. This recommendation will be based upon reports made to the committee by Mr. A. J. Kittleson, assistant state leader of boys' and girls' club work at the Northwest School.

Other scholarships for making greatest progress in different lines of school work will be awarded on commencement day, 1926. These awards will follow along the same lines as those which were awarded last March.

## THE NORTHWEST MONTHLY

Issued Monthly by  
THE UNIVERSITY OF MINNESOTA  
NORTHWEST SCHOOL OF  
AGRICULTURE  
C. G. SELVIG, Superintendent

OFFICE  
Northwest Experiment Station,  
Crookston, Minnesota

A monthly publication in the interest of  
agricultural education and home training for  
Northwestern Minnesota.

### CROPS AND BUSINESS.

The early spring and fine weather combined are creating a feeling of high optimism among the people of the Red River Valley, both those living on the farms and in the cities. The upward turn which was experienced in 1924 finds conditions much improved everywhere. With a favorable season during 1925 and prices for farm products at a satisfactory level, it is not too much to assume that farmers in the Red River Valley will soon regain their former favorable position.

Inquiries for seed and for information regarding diversified practices which have come to the Northwest Experiment Station, and conversations with farmers in every county in the district reflect this feeling of renewed optimism and the desire to continue the program of balancing production which has been made necessary following the war. Everyone hopes for a splendid crop and good financial returns for this season.

### VISITING DAYS

Many farm and community clubs are making plans to spend at least one day at the Northwest School and Experiment Station during the coming summer months. Thirty-two such organizations were here last year. From preliminary inquiries it is expected that this number will be greatly exceeded during the coming season.

The plan that has been followed is to have each club select a separate day for the visit. No other organization is given this date, as it has been found that there is more enjoyment if a relatively smaller number come at one time.

The school will furnish coffee, sugar and cream for the picnic luncheon which the members of the visiting delegations enjoy. An interesting program will be arranged, followed by either games or movies.

It is not too early to write to the school to give them the date that your organization has selected.

### TO BE REMEMBERED

June 26 is Northwest School  
Alumni Get-together Day!

Don't forget June 26, 1925. The  
Class of 1915 will cooperate with  
the officers of the Northwest  
School Alumni Association in making  
this the biggest and best get-  
together ever held.

### HONOR ROLL

The following students were placed on the honor roll for the second term because of their high scholarship:

#### Advanced.

James Hanson, Cass Lake.  
Emma Nelson, Gatzke.

#### Seniors

Elmer Anderson, Clearbrook.  
Stella Carlson, Hallock.  
Frank Groves, Bemidji.  
Ross Jacobson, Clitheral.  
Elmer Krogstad, Fertile.  
Frances Lindahl, Hallock.  
Einar Loven, Gatzke.  
Elmer Miller, Erie.  
Julius Nelson, Radium.  
Clarence Ofstedal, Winger.  
Amy Onneland, East Grand Forks.  
Joseph Parks, Borup.  
Cora Sorenson, Plummer.  
Helga Sorenson, Plummer.  
Theodore Silnes, Halma.  
Esther Strickler, Euclid.  
Cora Thompson, McIntosh.

#### Juniors

Alvera Applequist, Warren.  
John Covlin, Erskine.  
Gertie Dale, Fertile.  
Hilda Dale, Fertile.  
Karrol Gandrud, Detroit.  
Caroline Hruska, Lockhart.  
Benjamin Hurner, Glyndon.  
Rose Kozojed, Erie.  
Lawrence Letness, Thief River Falls.  
Violet Lundberg, Kennedy.  
Melvin Minske, Kennedy.  
Doris Olson, Fertile.  
Arthur Pederson, Clearbrook.  
Melvin Person, Ulen.  
Edna Peterson, Grygla.  
Arthur Ramse, McIntosh.  
Wesley Sheldrew, Grygla.  
Joseph Skatvold, Twin Valley.  
Lawrence Spears, Shooks.  
Phinny Stenberg, Clearbrook.  
Ernest Thompson, Fosston.  
Henry Vomacka, Ogema.  
Lilly Walhaug, Oklee.  
Harold Walters, Beltrami.  
Bertram Warnes, Karlstad.  
Theodore Ystenes, Bejou.

#### Freshmen

Arnold Aakre, Goodridge.  
Alice Anderson, Greenbush.  
Esther Anderson, Twin Valley.  
Reuben Anderson, Clearbrook.  
Rolf Anderson, Fisher.  
Carl Berg, Skime.  
Sophie Breiland, Hazel.  
Carrie Buck, Crookston.  
Dorothy Chandler, East Grand F'ks.  
Leota Chandler, East Grand Forks.  
Hannah Degerness, Gary.  
Alfred Erickson, Lengby.  
Laurel Erickson, Twin Valley.  
Ralph Erickson, Goodridge.  
Melvin Flaskerud, Fosston.  
Knute Grah, Roseau.  
Gunda Gullingsrud, Kratka.  
Clara Gunufson, Fertile.  
Selmer Harstad, Fertile.  
Elmer Hedstrand, East Grand Forks.  
Melvin Hole, Dalton.  
Gladys Huartson, Gatzke.  
Edwin Husby, St. Hilaire.  
Harold Johnson, Radium.  
Gerhard Lorentzon, Fosston.  
Randolph Ostlie, Gully.  
Ernest Paulson, Detroit.  
Clarence Pearson, Warren.  
Anna Radniecki, Wanke.  
Eliza Robidoux, Brooks.  
Ishmael Rynning, Kennedy.

Ella Short, Angus.  
Ingeborg Skavdal, Halstad.  
Glenn Smith, Wadena.  
Olaf Stenberg, Clearbrook.  
Benjamin Strickler, Euclid.  
Carl Widseth, Gonvick.

### VALLEY DELEGATION

#### GOES TO BRANDON

The Brandon, Manitoba, Winter Livestock Show was visited by four delegates representing Red River Valley agricultural organizations, last March. The delegation included C. G. Selvig, C. C. Strander, R. S. Dunham, and W. E. Morris. The Brandon show has grown to a remarkable extent since it was organized about 15 years ago. W. C. McKillikan, president of the Manitoba Agricultural College, is president of the Brandon Winter Shows. While at Brandon, Superintendent Selvig gave an address in connection with the boys' calf club competition. The delegation returned with many ideas which will be of value in connection with the Red River Valley Winter Shows.

### LIVESTOCK ASSOCIATION

#### WILL EXPAND

The Northwestern Minnesota Agricultural association, located at Crookston has been merged with the Red River Valley Livestock association as a result of negotiations carried on between these two organizations. The annual appropriation made to the Northwestern Minnesota fair was transferred to the Red River Valley Livestock association by the legislature during its present session. Citizens of Crookston raised \$2,000 to pay off a part of the indebtedness of the Northwestern Fair association. The remainder will come from the sale of the fair association buildings.

The directors of the Red River Valley Livestock association will meet at an early date to discuss the matter of providing an additional building to be located north of the present cattle and swine exhibit building which faces on Ash Street, in Crookston.

The Red River Valley Livestock association and the Winter Shows are on the eve of a great forward development in connection with the winter exposition and meetings, which have attained much prominence.

### GUERNSEY SALE

The Red River Valley Guernsey Breeders' Association will hold their annual sale on Thursday, June 11. This event is always an interesting one, which attracts a large number of farmers who are interested in dairying and particularly in Guernsey cattle. Leonard Houske, Halstad, is secretary of the Guernsey Breeders' association, and Stuart McLeod, Goodridge, is president. Nels Palm, Alvarado, '14, and Paul Engelstad, Thief River Falls, '16, are directors of this association.

### PURE BRED STOCK FOR SALE

The Northwest Experiment Station has four pure bred Holstein and three pure bred Shorthorn bulls for sale. They are priced at very reasonable figures. A fine lot of yearling Shropshire rams will also be sold.

## SEVENTEENTH ANNUAL COMMENCEMENT EXERCISES

(Continued from Page 1)

and Frank Groves, Bemidji, explained Farm Marketing, while Helga and Cora Sorenson showed in a practical way the "Line and Appropriateness of Dress." Theodore Neske, Princeton, Class President, gave the class oration on "Life's Journey Begun."

The address of the evening was by D. D. Mayne, of the Central School of Agriculture, St. Paul, on the subject, "The Practical in Education." Mr. Mayne said that progress in education had not been as rapid as in the material and business world. Tribute was paid to the schools of agriculture for the training they provide.

At the conclusion of the program Supt. C. G. Selvig announced the list of honors and awards. The awards in the school essay contest went to Carrie Buck, Crookston, and to Ralph Erickson, Goodridge. For the best home projects last summer, Caroline Hruska, Lockhart, was first, and Lawrence Letness, Thief River Falls, first among the boys. Monetary awards for the declamatory contest were made to Helen Gibbons, Crookston, for the Home Economics society; Emma Nelson, Gatzke, Sanford Club; Robert Davids, Bagley, for the Lincoln; Frank Groves, Bemidji, Agrarian, and Wallace Miller, Roseau, for the Pioneer. Awards for membership on the school debating team went to Wallace Miller, Roseau; Robert Davids, Bagley; Oliver Howard, Highland; Theodore Neske, Princeton; Elmer Anderson, Clearbrook, and Elmer Miller, Erie.

Awards were also made to the boy and girl in each class who has made the most progress. These were won for the freshmen by Hannah Degerness, Gary, and Randolph Ostlie, Gully; for the juniors by Alvera Applequist, Warren, and Ray Magnuson, Grygla. The senior winners were Amy Onneland, East Grand Forks, and Einar Loven, Gatzke. The award for the highest scholarship and all around student, and the most noteworthy award of the evening, was made to Elmer Anderson, Clearbrook. These awards have been made possible through funds provided by farmers' clubs such as the Fairfax Andover club of Crookston, previous classes and through bequests made to the University, such as the Caleb Dorr funds.

## LARGEST JUNIOR COURSE ON RECORD

The fourteenth annual Junior Short Course held March 30-April 3, enrolled 273 boys and girls, the greater part of whom were club members, from the following counties: Becker, 4; Clay, 13; Clearwater, 21; Kittson, 23; Mahnomen, 4; Marshall, 15; Norman, 44; Ottertail, 4; Pennington, 14; Polk, 114; Red Lake, 9; and Roseau, 8.

In addition to the school faculty there were present T. A. Erickson, Mrs. Genevieve Meybohm, Miss Fannie Buchanan, and Miss Leonore Dunnigan. Miss Buchanan gave practical talks on the history of music. Miss

Dunnigan explained good manners. She also showed the juniors how to report for newspapers.

The week was filled with class work, excursions, recreation, movies and singing. The instruction dealt with boys' and girls' club work and other questions dealing with the farm and the home.

On April 2, four advanced bread making teams competed. These were from, Warren, Glyndon, Fergus Falls, and the Northwest School. The Northwest School team, representing Polk county, won first and Fergus Falls, representing Ottertail county, won second. Helen Gibbons, Crookston, and Cora Walters, Beltrami, were on on the winning team and both are students of the Northwest School. The Northwest School won in the district last year and were awarded the trip to the state fair.

## NEW FACULTY MEMBER

Miss Retta Bede, Pine City, will succeed Miss Mildred Schenck, who has resigned to enter home economics extension work. Miss Bede will have charge of foods and nutrition classes at the Northwest School. She is a graduate of the University of Minnesota, and has had very successful teaching experience.

Supt. C. G. Selvig has kindly arranged to give the Alumni association space in every issue of the Northwest Monthly. As an alumnus you can help by making this your department by sending in items which you think will be of interest. Your class mates and school friends will be interested in knowing of your whereabouts and your work. Be sure to let the secretary or other officers of the association hear about you occasionally.—T. Tunheim, Sec'y.

## HEALTH SERVICE BUILDING

A committee of the Board of Regents visited the Northwest School on March 13 to investigate the conditions and needs of the health service as administered at the school. The committee found that the first floor of Stephens Hall was used by sick and convalescing students and immediately realized the many disadvantages in connection with this situation.

A final recommendation has not yet been made by the Board of Regents, but it is expected that a separate health service building will be provided.

This building will immediately release ten dormitory rooms for the use of students. During the past year it was necessary to place three in each dormitory room in many instances on account of the lack of dormitory quarters.

## NEW GREENHOUSE LOCATION SELECTED

Several years' observation of the growth and condition of plants in the Northwest School Greenhouse indi-

cate that its present location is unsatisfactory from the standpoint of its close proximity to the new dining hall building. During the winter months the dining hall building shades the greenhouse practically during the entire day.

The present greenhouse will be moved to a new location directly south of the Owen building. A new greenhouse unit will occupy the central position in the plan, with the present greenhouse occupying positions on each wing. It is planned to begin work on this greenhouse unit within the next few weeks.

## EXTENSION ACTIVITIES

The Northwest School has been represented at a large number of farm clubs and other meetings during the past month. Included among these events are farmers' institute at Gary; weed institutes at Red Lake Falls, Crookston and Stephen; farm club meetings at Gary, Angus, Fairfax-Andover, McCrea club, Newfolden, Viking, Keywest and Tabor.

Members of the staff carried on the junior short course work at the Northwest School and assisted at the junior short course held at Bemidji and at University Farm.

Cow testing work has been given assistance by staff members, as has the campaign for county agent, which is under way in western Polk county. In addition, two members of the staff have addressed women's club meetings. Horticultural meetings were also held in Wadena county. Rural school recreation days are another feature of the school's extension work.

Francis Jager addressed two meetings in Crookston during March, one of which was held under the auspices of the school.

All communities are free to secure the services of the school and station staff whenever it is possible for them to come.

## "SNAPSHOTS" OF CAMPUS ROADS

On account of the fact that the campus roads at the Northwest School are almost perfectly level, there is much difficulty in keeping them in a passable condition. While no rain has fallen this spring up to the present time, the campus roads presented a very unsatisfactory condition during a period of several weeks during March and April.

Photographs have been taken of the campus roadway each season since 1921 during the period of the spring break-up and during periods of protracted rainfall. In spite of the utmost care being taken to maintain serviceable and passable roads, it is apparent that nothing will suffice excepting pavement of some kind.

The matter of undertaking this work was favorably considered by the Board of Regents, who included an item for paving in the budget for the biennium submitted to the legislature. There has been no final decision made in regard to this item up to the present time.

### CAMPUS PLANTINGS

The major campus planting work is centered this year in the demonstration garden, where sixty-eight species and varieties of flowering perennials are being planted. Twelve varieties of peonies and ten of phlox are also included in the list. In addition, seventy-five species and varieties of trees and shrubs, five species of bush roses and fourteen varieties of hybrid perpetual roses are included in the demonstration garden plan.

Although the shrubs and flowering perennials will not make a complete ground cover this year, yet a very pleasing effect can be noted now, which speaks well for the ability of the landscape architects. The new greenhouse arrangement will be an integral part of the demonstration garden layout.

Visitors at the Northwest Station this summer will be able to get first hand information on varieties and species of planting materials by observing the growth of materials used in the demonstration planting.

### HATCHING RECORDS ARE SATISFACTORY

Greater interest than ever before is being taken in the poultry work on the farms in this section this spring, as indicated by the increasing number of requests made for hatching eggs, custom hatching and baby chicks received at the Northwest Station. Over 1500 baby chicks have already been hatched and by the time the season closes upwards of 20,000 eggs will have been incubated. The hatching results this year are proving very satisfactory and to date chick mortality has been very light. The feeding of 1% cod liver oil to the young chicks to prevent leg weakness is proving very beneficial.

### DATES TO KEEP IN MIND

June 26—Northwest School Alumni Reunion and Get-together at N. W. School.

June, July, August—Dates for farm and community club visiting days at N. W. School.

Sept. 28—Opening of 20th year of Northwest School.

October—Celebrating 30th anniversary of establishment of N. W. Experiment Station and 20th of N. W. School. Dates to be decided later.

### PURE SEED DISTRIBUTION

Sixty-five growers located in practically every section of Minnesota have obtained Gopher oats from the Northwest Station this spring. This distribution consisted of 795 bushels. In addition to this amount, ninety bushels were distributed directly for other growers, and several hundred bushels more indirectly through the pure seed growers' lists.

Chippewa, the wilt-resistant variety of flax, first distributed last season, is in even greater demand this spring. The station has supplied 330 bushels of this variety to thirty growers. Twenty-three hundred bushels of pure seed of other standard varieties have been furnished from the station. Increase fields of Gopher oats and Vel-

vet barley, the newly-developed smooth-awned barley, are being grown for distribution in 1926.

### SEED GROWERS' LISTS

Two seed growers' lists, containing names and addresses, varieties, and amounts of pure seed of improved varieties offered by growers in Northwestern Minnesota have been issued from the Experiment station this year. The first general list, published January 15, included registered, certified and other high grade seed reported to the pure seed department up to that time. A large number of inquiries resulted, and very early in the season many were sold out of some varieties. Ac-

cordingly a revised list was issued early in April, including lots of seed still available or reported since the first publication. These lists were issued in cooperation with the Red River Valley Crops and Soils association, which is affiliated with the Minnesota Crop Improvement association for promoting the production of improved varieties of field crops in northwestern Minnesota.

### STATION REPORTS FREE

A limited number of the Northwest Station Report for 1924 are available and will be mailed to anyone free upon application. This report gives the results to date of the experimental projects carried on at the station.

## FROM FAR AND NEAR

'13—Lionel Skibness sends greetings from 222 Second Street, Bismarck, North Dakota, where he is now located.

'14—Mathilda Ofstedal sends greetings from 330 South Grand Avenue, Los Angeles, California, where she is studying nursing.

'15—Gerda Kulle is teaching at Climax this year.

'17—Maja Peterson is taking a commercial course at the high school at Grand Rapids.

'18—Announcement has been received of the marriage of Guy G. Spokeley to Marjorie Mande Urquhart, at Huron, South Dakota, on December 31, 1924. They are at home in Minneapolis.

'19—Mrs. Carl Wallin (Verna Imsdahl), Willmar, writes that she enjoys reading the N. W. Monthly.

'20—Einar Aakre writes from 2137 Commonwealth Avenue, St. Paul, where he is attending the Agricultural College, that the Farm Crops Show this year was the first one he had not attended in the last eight years.

'22—Ila M. Slyter is completing her nurse's training at the University Hospital, Minneapolis.

'22—Arthur J. Anderson writes from Bemidji, 1317 Irvine Avenue, that he is attending State Teachers' college. He is rooming with Jesse Anderson.

'22—Milo Wold writes from Rockford, Ill., that he is operating an automatic machine which mills out parts for the Sundstrand Adding Machine.

'23—Albert Kopecky is attending the Agricultural College. His address is Box 59, University Farm, St. Paul.

'24—Alice Engelstad is attending the Dakota Business College at Fargo, N. D. Her address is 120, 8th St. South.

'25—Elmer Miller is still in the hospital at Crookston, but hopes to get out next week as he is getting along as well as can be expected.

'25—Einar Eilertson's address is Box V, Crosby, Minnesota.

'25—Frances Lindahl and Miss Mildred Schenck assisted at the Junior Short Course at Bemidji, last week. Frances and Miss Schenck report a

very enjoyable week. Miss Schenck had charge of the sewing work and Frances the cooking. One interesting feature to them was the fact that they had several Indian girls in their classes.

Mrs. Axel Nordstrom (Esther Wilmer), is living at Drayton, N. D.

Crandall Atwood, 414 Second Avenue South, St. Cloud, visited at the school recently on his return from a trip to western Canada.

William C. Bydal has been living in California for two years. He is working for the O. J. Weber Company, manufacturers of dairy products. His address is 2236 Allesandro St., Los Angeles.

Mrs. Ole Lien (Ella Austad), Graydahl, Sask., Canada, who attended the N. W. S. A. in 1916-17, writes that she is an interested reader of the N. W. Monthly.

Oscar J. Johnson is working at the Spaulding Farm, Warren.

Mrs. M. L. Lindfors, Fosston, died very suddenly on April 4. The N. W. Monthly extends sincere sympathy to the family in their bereavement.

Hector Hanson, '24, and Ole Pederson, '15, were members of the Odin Male chorus and Maurice Bursheim, '21, Halvor Nornes, '22, Lewis Vesledahl, Martin Vesledahl and Phillip Solberg were members of the Laerken Winger Chorus that sang with the Festival Chorus at Crookston on February 13.

Word has been received that Marylin Ruth came to the home of Mr. and Mrs. Cyril Wengert (Lottie Ward), Los Vegas, Nevada, on Thanksgiving Day.

Miss Bernice Nolan is attending the University of Minnesota this quarter, and Miss Alva Sherwood has accepted a position in Minneapolis. Their address is Dunwoody Hall, La Salle and 10th Street.

'25—Theodore Neske, Princeton, won second place in an essay contest conducted by the Minnesota Realty association, in which nearly 100 essays from every section of the state were entered. Cash prizes of \$25.00, \$15.00 and \$10.00 were offered. The essay was written on "What Constitutes an Ideal Minnesota Farm."
