VOL. XV.

CROOKSTON, MINNESOTA, MAY, 1931.

NO. 6.

Plans Complete For Annual Junior Short Course

The first of a series of summer short courses and special days held annually at the Northwest School of Agriculture will be the Twentieth Annual Junior Short Course scheduled for June 8-11. The short course is open to all boys and girls in Northwestern Minnesota between the ages of twelve and twenty-one.

The program, as announced by H. A. Pflughoeft, includes demonstrations, contests, outdoor games, stunts, movies and other entertainment. The instruction offered will be especially helpful to 4-H club members as lectures and demonstrations will be given to assist in the summer project work.

A leadership class, under the direction of H. A. Pflughoeft, will be conducted each day for club leaders and older club members. Conducting club meetings and planning club programs will be emphasized in this class.

One of the features of the Short Course will be swimming contests to be held in the new swimming pool in the Physical Education Building. Another interesting feature will be the presentation of several one-act plays by various 4-H clubs throughout the district. All groups should come prepared to enter teams in the competitive athletic contests. The annual stunt night will be held Wednesday evening, June 10, at which time individual, group and club stunts will be presented along with the one-act plays.

Boys and girls should come Monday afternoon, June 8, or Tuesday morning, June 9. The school bus will meet all trains Monday afternoon and Tuesday morning. Upon arrival at the
(Continued on Page 4)

Livestock Feeders' Day, June 15

The Eighth Annual Livestock Feeders' Day will be held at the Northwest Experiment Station, Crookston, Monday, June 15. According to George Wight, Animal Husbandman at the station, the feature of the day's program will be a discussion of the baby beef feeding trial.

Thirty-two head of high grade Hereford calves were purchased on the South St. Paul Market last October and placed on feed at the Northwest Station. The object of the trial has been to secure information on the comparative value of wheat and barley as a feed for fattening baby beef. All lots have been making satisfactory gains and the trial should bring out

Sixth Annual Women's Camp June 15-18

Women of Northwestern Minnesota who have attended previous Women's Camps at the Northwest School of Agriculture are looking forward to the sixth annual camp scheduled for June 15-18. Judging from the number of inquiries received the camp promises to be one of the most interesting ever held. An attractive program of education, entertainment, and recreation has been arranged by the committee in charge.

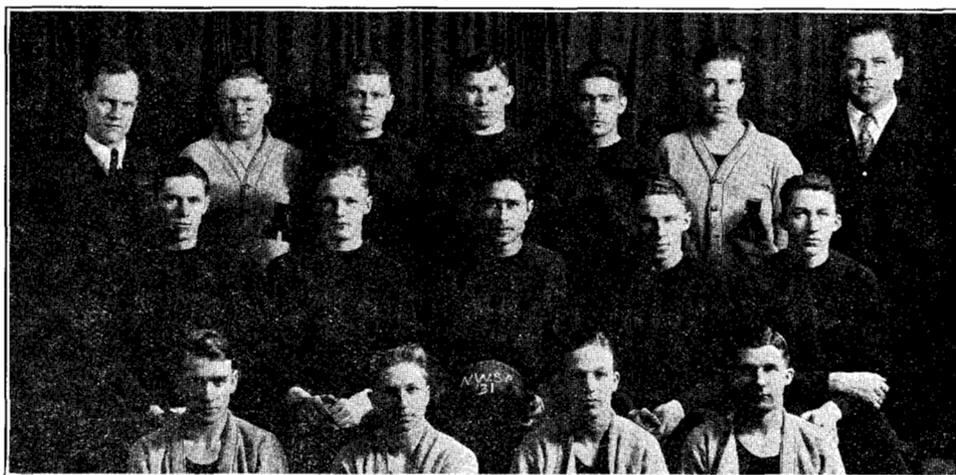

Ideal vacation surroundings and the

opportunity of hearing timely discussions dealing with the home and the community has made the Women's Camp exceedingly popular among northwestern Minnesota women.

Several new features will be added to the program, chief of which will be the addition of swimming contests to be held in the new swimming pool. Upon recommendation

of the committee, a swimming "scholarship" will be awarded to the one making most progress in the aquatic sport. The birthday dinner will be held Tuesday evening and many new ideas will be incorporated in the decoration of the birthday tables. The annual stunt night will again be held Wednesday evening, June 17, and the winner of first place in the stunts contest will be awarded the special Women's Camp trophy, upon which is printed in black paint the name of the winner of the trophy. The hunt for the golden horseshoe will occupy the campers' attention before breakfast each morning.

The camp opens Monday afternoon, June 15, and continues through Thursday, June 18. The total expense for
(Continued on Page 4)

1930-31 Basketball Team finished second in the Minnesota Agricultural School Conference

some interesting points relative to the feeding value of wheat, since this grain has not been used extensively as a feed for livestock in the past.

Lot I has been fed ground barley; Lot II has been fed ground wheat; Lot III, ground wheat 50%, ground barley 50%; and Lot IV ground wheat 50% and ground oats 50%. All lots receive 15 pounds linseed meal per head daily and all the sweet clover hay they will consume. In addition, salt and bone-meal are self fed to all lots.

Other features of the program will be talks by prominent livestock specialists on practical problems of particular interest to the Red River Valley livestock men. The annual weight guessing and livestock judging contest will be one of the interesting and instructive features of the day's events.

Crookston, Minnesota.

A monthly publication in the interest of agricultural education and home training for Northwestern Minnesota.

WINTER TERM HONOR ROLL

As a result of high scholastic standing, the following students were placed on the honor roll at the close of the winter term:

FRESHMEN

Student	Address
Melvin Cordes	Hemming Crookston
Glenn Ellinger	
Raymond Grabowenski,	Warren
Clarence Hanson	Strandquist
Dayton Hanson	Gary
Richard Holmgren	Carp
Paul Ingebretson	Ulen
Harold Letnes	Hillsboro, N. D.
Rodney Lindstrom	Lake Park
Anna Loken	Elizabeth
Jean Nisbet	East Grand Forks
James Rynning	Kennedy
Harriet Severson	Clearbrook
William Sitko	Ada
Russel Stave	Bagley
Stephen Vilven	Crookston
Clarence Weckwerth,	Hazel

JUNIORS

Student	Address
Wallace Abbott	Mentor
Douglas Adkins	Gryla
William Ardell	Twin Valley
Lloyd Chapman	Crookston
Esther Dalager	Pelican Rapids
Agnes Eggen	Fertile
Arvin Gorden	Badger
Kernit Greenley	Viking
Herbert Hanson	Fisher
Beulah Harris	Crookston
Lucy Harris	Crookston
Lawrence Harstad	Crookston
Christian Holte	Baudette
Elmer O. Johnson	Newfolden
Peter Mandt	Oklee
Melba Parduhn	Cedarbend
Irene Pearson	Hallock
Harry Shetterly	Oklee
Herman Simonson	McIntosh
Violet Solmonson	Thief River Falls
Arnold Strand	Twin Valley
Harry Tangen	Menahga
Esther Torgerson	Fosston
Edwin Widseth	McIntosh

SENIORS

Student	Address
Roy Boman	Syre
Alpha Bruun	Climax
Clinton Donley	Fergus Falls
Arthur Hendrickson	
Allan Hoff	Fosston
Emory KenKnight	Dalton
Agnes Lundin	Clearbrook
Donald McCall	Stephen
Helmer Nornes	Crookston
Arthur Paulson	Lockhart
John Pearson	Detroit Lakes
Clarence Peterson	Middle River
Richard Radway	Hawley
Herbert Schroeder	Roosevelt
George Schulz	Fergus Falls
Arnold Wolden	Fergus Falls Saum

ADVANCED

Student	Address
Johanna Caudle	Lawrenceburg, Tenn.
Ruby Ferry	Hendrum
Kenneth Flom	Twin Valley
Norah Hamre	Gary
Ethel Harris	Crookston
Wilfred Knutson	Clearbrook
Daniel Letnes	Crookston
Effie Pederson	Clitherall
Lester Tangjerd	Bagley

SPECIAL

Student	Address
Lawrence Ward	St. Vincent

D. A. R. HOLD INTER-ESTING MEETING

Members of the Crookston chapter of the Daughters of the American Revolution planted two trees and a lilac bush on the Northwest School campus when they held their regular monthly meeting in the school dining hall, Monday, May 4. An elm tree was planted west of the sunken garden and directly across from Kiehle Building. At the east end of the sunken garden and across from Stephens Hall a lilac bush was planted. Midway between the monument and the new Physical Education building a butternut tree was planted. About twenty members of the Crookston chapter participated in the planting ceremony.

Following the tree planting ceremony, slides illustrating the History of American Painting were shown in the school cafeteria after which lunch was served in the school dining hall by Miss Fanny B. Lippitt.

The Crookston chapter of the Daughters of the American Revolution presented the Northwest School library with a framed picture illustrating the proper methods of displaying the American Flag.

Crop Judging Team

RHODE ISLAND RED PULLET MAKES RECORD

For the first time in the history of the Northwest Experiment Station, a Rhode Island Red pullet holds the highest production record of any bird in the station flocks. She is the daughter of a hen with a pullet record of 249 eggs and a two-year record of 401 eggs. The dam has excellent type, with deep, rich surface coloring, and uniform, dark under-color. She has a mature body weight of 6½ pounds, while in heavy production, and produces eggs of a deep brown color weighing 26 ounces to the dozen.

Five daughters of this hen, sired by a pedigree bird of good type and color, with a dam's production of 248 eggs in one year, have shown exceptional production during the winter. According to A. M. Pilkey, station poultryman, these five pullets have an average mid-winter production record of 74.3%.

WIDSETH ELECTED

PRESIDENT OF Y. M. C. A.

Edwin Widseth, McIntosh, was elected president of the Northwest School Young Men's Christian Association for the school year 1931-32, at the last meeting of the association held in Stephens Hall, March 22. Harry Tangen, Menahga, was chosen for vice-president, and Ingolf Swanson, Alvada, for secretary-treasurer. With this meeting, the association closed a very successful year.

Eleven members of the faculty acted as leaders in the Sunday morning Bible classes conducted by the association each week during the school year. Joint sessions of the Y. M. C. A. and Y. W. C. A. in the auditorium each Sunday evening were addressed by speakers from the city of Crookston. The Older Boys' Conference, held in Crookston November 14-16, under the auspices of the local association, with the cooperation of the state organization, was attended by delegates from Fargo, Grand Forks, and from various points in Northwestern Minnesota.

MANCHURIA BARLEY

EXCELS TREBI IN

FEEDING TRIAL

Trebi or Canadian barley is less valuable for swine feeding than Manchuria, according to Professors E. F. Ferrin and W. H. Peters of the Animal Husbandry division of the University of Minnesota, who conducted feeding trials during the past summer with two lots of barley obtained from Crookston growers. Two lots of six pigs each, averaging 135 pounds at the beginning of the trial, were fed for sixty days, one lot with Trebi barley and the other with Manchuria. While the feed required for one hundred pounds gain was practically the same for each lot, the pigs fed with the Trebi variety ate less barley and consequently gained more slowly than the animals fed with Manchuria. The Trebi barley seemed to be less palatable than the Manchuria, as the pigs fed upon Trebi consumed nearly one pound less barley per head daily. Chemical analysis of the two varieties did not show any considerable difference in composition. Trebi contained 4.7% fiber (chiefly hulls) and Manchuria 4.76%, contrary to the common opinion that Trebi has a higher proportion of hulls.

The Trebi barley used in the trial was grown by Robert Symonds, and the Manchuria by Earl Wardell, both of Fairfax township, located a few miles south of Crookston. Both lots of grain were selected by E. R. Clark of the Northwest Experiment Station and shipped to University Farm for the trial. Trebi barley was first introduced into the United States from Canada in 1924, although the variety originated at the Idaho station. Manchuria was introduced into Wisconsin from Germany and is the most common variety of common six-row barley in Minnesota.

ALUMNI REUNION SCHEDULED FOR JUNE 27

Staff members of the Northwest School are preparing to entertain the largest gathering of alumni, students and friends ever present at an annual alumni reunion. The date has been set for June 27, this being in accordance with the policy adopted by the Alumni Association several years ago to hold the reunion the last Saturday of June. In addition to the annual Alumni dance which is scheduled for the evening, an attractive program of games is being prepared by the committee in charge of the day's activities.

The baseball game between alumni and students will again be a feature of the afternoon program. Both graduates and students should begin preparations for this game as soon as possible.

Confident that they can maintain their excellent record over the alumni in kittenball the faculty of the school are again challenging graduates to a game to be played early in the evening. It is expected that the swimming pool will be opened for alumni late in the afternoon, thereby giving former students the privilege of using the new facilities.

A special drive will be made to encourage members of the classes of '26, '21, '16, and '11 to attend the reunion. Mr. and Mrs. T. M. McCall, advisers of the class of '16, are urging members of that class to hold a special picnic on Alumni Day. Mr. McCall has promised to furnish coffee and beans for the picnic dinner if class members will bring sandwiches. Come on, you sixteeners!!

The complete program and committees for Alumni Day will be announced in the June issue of the Northwest Monthly.

Officers of the Alumni Association are: Miss Frances Lindahl, Hallock, President; John Gronner, Underwood, Vice-President; Hannah Degerness, Gary, Secretary-treasurer.

1932 AGGIE BOARD ANNOUNCED

At their last meeting of the year, members of the Junior class elected the 1932 Red River Aggie staff to serve under the direction of Superintendent and Mrs. A. A. Dowell, class advisers. The staff appointed is as follows: Editor-in-chief: Wallace Abbott, Mentor; assistant editor: Christian Holte, Baudette; business manager: Kermit Greenley, Viking; advertising manager: Edwin Widseth, McIntosh; assistant advertising manager: Herbert Hanson, Fisher; subscriptions: Lawrence Harstad, Crookston, and Elizabeth Erickson, Marine-on-St. Croix; faculty editor: Garth Ferris, Orr, N. D.; senior editor: Paula Buck, Grygla; Athletics: Alvin Gronner, Underwood and Merwin Hagen, Underwood; Music: Herman Simonson, McIntosh and Esther Torgerson, Fosston; Snapshots: Orpha Johnson, Hawley and Douglas Adkins, Grygla; Jokes: Olive Heegard, Hendrum; School organizations: Lloyd Chapman, Crookston, and Irene Pear-

son, Hallock; Alumni: Arvin Gorden, Badger; Staff typist: Harry Shetterley, Oklee.

COUNTY AGENTS HOLD CONFERENCE AT NORTHWEST SCHOOL

The two-day agent conference held at the Northwest School May 12 and 13, was attended by all county agents and home demonstration agents of this district, Smith-Hughes workers, representatives of the railroads, and specialists from University Farm. Others who appeared on the program included A. J. Olson, president of the State Farm bureau; Ole A. Flaata, president of the Polk County Farm bureau; Paul Calrow, state supervisor of Vocational Education; William Stephen from the State Agricultural bureau, and H. A. Colquette, editor of the County Guide, Winnipeg.

The conference program and discussions were under the leadership of F. W. Peck, director of the Extension Division, University Farm, and C. L. McNelly, district supervisor of county agents. The varied phases of a county agent's work were evident in the subjects presented: Boys' and Girls' clubs, Wool Marketing, Farm Labor, Community Clubs, Phosphate Deficiency, Home Demonstrational Activities, Turkey Production, Smut Control, Mail Order Testing of Milk and Cream, Sheep in the Valley, T. B. Testing.

The Present Economic Situation

"Fully realizing the present situation, let's be sensible pessimists or sensible optimists," said Director Peck in his address on Policies, Practices, and Relationships. "Probably the extension program in no county needs to be wholly changed under present conditions, but emphasis on subject matter may need to be shifted." Mr. Peck brought up for discussion a plan to hold economic conferences in a few districts comprising four or five counties. A definite program along agricultural lines for the district would result from a round table discussion by farmer representatives together with county agents and University workers.

Program of the State Farm Bureau

"The state and national Farm Bureau has a five-point program," stated A. J. Olson, president of the state organization. "Its activities are along the lines of education, marketing, buying, taxation, and financing. We still need better farming; cooperative marketing needs encouragement; some things should be purchased in wholesale quantities by farmers; our system of taxation needs revision, and rural financing is still unsatisfactory in the belief of the Farm Bureau."

Ole Flaata, president of the Polk County Farm bureau, stated that there will be some who will sell wheat for 60 cents and make a profit. A reduced cost of production is a possibility and a necessity in farm produce.

Phosphate Deficiency

The subject of phosphate deficiency as presented by Dr. C. H. Eckles, chief of the Dairy Division, University Farm, provoked much interest. This deficiency

among cattle as evidenced by chewing bones, was reported as serious in Roseau, eastern Kittson, Pennington, east Polk, east Marshall, Red Lake, eastern Norman, and Wilkin counties. It has been found in all northwestern counties.

The trouble arises from the deficiency of phosphorus in soils which produce forages low in phosphorus. Animals fed on this deficient feed, develop an abnormal appetite, chewing manglers and bones, and becoming thin and stiff in the joints.

"Bonemeal is the cheapest source of safe phosphorus to be used as a remedy," said Dr. Eckles. "Only the kind of bonemeal prepared for animal feeding should be used."

The Place of Sheep in the Valley

"Sheep and lambs have a higher exchange value at the present time than any livestock product," declared W. E. Morris, livestock specialist from University Farm. "Furthermore sheep producers in the northern part of the state have many advantages over producers in other sections of Minnesota." Out of fifteen sheepmen who produced 100 or more pounds of lamb per ewe in 1930, eleven were from the northern counties, according to the figures of a lamb-raising contest conducted by University Farm specialists.

Mr. Morris estimated the cost of keeping a ewe a year at from \$5.00 to \$6.00. To break even with this cost, it would require seven pounds of wool at 15 cents a pound and a 100% lamb crop averaging fifty pounds per lamb and selling at 6 cents a pound.

Boys' and Girls' Club

New projects, including a health project and a state and national competition for the healthiest boy and girl were announced by A. J. Kittleson, state club leader, and H. A. Pflughoeft, district club leader. Projects for advanced members of clubs include dairy production, farm records, poultry rearing and egg production, meat production, and an essay on "My Trip Through a Dairy Plant."

List of Attendants

Those in attendance at the conference were as follows:

F. W. Peck, Director of Extension Division.
A. J. Kittleson, State Club Leader.
C. L. McNelly, District Supervisor of County Agents
Miss Julia Newton, State Home Demonstration leader.
Miss Mildred Schenck, State Club leader.
H. A. Pflughoeft, District Club leader.
J. W. Taylor, Roseau county.
J. A. Salisbury, Kittson county
R. M. Douglass, Pennington county.
A. W. Aamodt, Western Polk county.
Russell Morgan, Eastern Polk county.
O. K. Engene, Clearwater county.
R. C. Shaw, Eastern Ottertail county.
C. M. Kelehan, Western Ottertail county.
O. R. Grover, Wilkin county.
C. C. Chase, Norman county
Evelyn Bierbaum, Polk County Club leader.
C. M. Pesek, Inspector State Dairy and Food Dept.

Miss Helen Kallenberg, Home Demonstration Agent, Stevens county.
 Miss Charlotte Kirchner, Home Demonstration Agent, Wilkin county.
 R. S. Dunham, Northwest School.
 H. A. Colquette, Winnipeg, Editor of Country Guide.
 W. E. Morris, Livestock Specialist, University Farm.
 William Stephen, State Agricultural Credit Bureau.
 Chester Morrison, Great Northern Railroad.
 Dr. C. H. Eckles, University Farm, Chairman of Dairy Department.
 Paul Calrow, State Supervisor of Vocational Education.
 A. J. Olson, President State Farm Federation.
 George Landsverk, Agricultural Instructor, Fosston. (Norman County Agent, beginning June 1, 1931.)
 Gerald Sullivan, Agricultural Instructor, Warren.
 Ole A. Flaot, President Polk County Farm Bureau.

PLANS COMPLETE FOR ANNUAL JUNIOR SHORT COURSE

(Continued from Page 1)

Northwest School, all students should report at the Registrar's office for room and class assignments. Supper will be served at six o'clock.

Students should bring bedding, such as sheets, blankets, pillows, also soap, towels, tennis shoes and bathing suits, if available, musical instruments and necessary change of clothing for the week.

Classes will begin at eight o'clock Tuesday morning, with the Northwest School faculty in charge. County agents and club leaders in northwestern Minnesota will assist with the program.

The recreational program will include movies Monday and Tuesday evenings, with stunt night being held Wednesday evening. Considerable time each day will be devoted to outdoor games, such as kittenball, volley ball, group games, relay races, field meet, swimming, etc.

H. A. Pflughoeft, club leader, will supervise the activities of the week. The total cost for room, board, and entertainment will be \$3.00. Write the Northwest School for further information.

SIXTH ANNUAL WOMEN'S CAMP, JUNE 15-18

(Continued from Page 1)

board, room, and entertainment beginning with the dinner Monday evening and continuing through Thursday afternoon will be \$3.75.

At the close of the 1930 camp the following committee was appointed to assist with the 1931 program: Mrs. E. E. Green, Crookston, Chairman; Mrs. J. W. Mapps, Warren, Secretary; Mrs. C. H. Roholt, Portland, North Dakota; Mrs. Emma Wright, Middle River; Mrs. N. P. Stenborg, Clearbrook; Mrs. A. F. Stroble, Angus; Mrs. Albert Lindstrom, Waubun; Mrs. Curtis A. Smith, Grygla; Mrs. O. S. Nordine, Karlstad; Mrs. V.

C. Noper, Thief River Falls; Mrs. G. E. Lamberson, Warren.

The complete program for the camp will be printed in the June issue of the Northwest Monthly.

Write the Northwest School of Agriculture, Crookston, for room reservation and additional information. In reserving rooms indicate whether you prefer the "quiet" dormitory (Senior Hall) or the "noisy" dormitory (Robertson Hall).

Coming Events

June 8 to 11—Junior Short Course.

June 15—Livestock Feeders' Day.

June 15 to 18—Women's Camp.

June 27—Alumni Reunion.

July 20—Crops and Soils Day.

PERSONALS

Mr. and Mrs. William Austin (Olga Nettum, William 1916-18) have returned to their home at Malung. William has been receiving medical attention at the Veterans Hospital in Minneapolis for some time.

Mr. and Mrs. Albert Jacobson (Gertrude Bagaas, '17, Albert 1914-15) have recently moved from Stephen to a farm near Hallock. Albert and Gertrude write that they enjoy reading the Northwest Monthly, and send best wishes to the readers.

Thomas Abbott, '18, is farming near Dassell, Minnesota. Tom is a brother of Wallace (1929-31) of Mentor.

Lars Engelstad (1919-20), formerly of Thief River Falls, is now employed by Harris Brothers at Fargo, North Dakota.

Elmer Sandal (1919-20) is running their home farm at Syre.

Professor Millard Peck, instructor here during 1920-21, is now Professor of Economics at the Iowa State College, Ames.

Mr. Elev Aakre of Thief River Falls, died Tuesday, May 5. He was the father of Einar, '20, of Granite Falls, Richard, '22, and Arnold, '27, of Minneapolis, and Mrs. William Henry (Theresa, '24) of Chico, California. We extend sympathy.

Laudy Reske, '21, is working near the home farm on the North Dakota side of the Red River near Oslo, Minnesota.

Mr. and Mrs. Halvor Nornes (Halvor '22) of Winger, are the parents of an 8½-lb. baby boy, born April 27.

Mr. and Mrs. George Wight, Campus, announce the arrival of Jean Evelyn, on April 10th.

Registrar J. W. Mlinar of the Northwest School visited relatives and friends in the Twin Cities during the latter part of April.

Claire Halverson, '23, sends greetings. He is operating "Claire's Service Station" at Seven Corners, Minneapolis.

Joe Viker (1926-27) has been teaching at Osakis, Minnesota, during the past year.

Melvin Hole, '27, 1342 Raymond Avenue, St. Paul, a student at the University of Minnesota, was elected Secretary of the Block & Bride Club for the ensuing year.

George Berggren, '29, 1504 Fulham Avenue, St. Paul, in attendance at the University of Minnesota, was awarded Freshman numerals in wrestling by the Athletic department. The award carries with it a heavy maroon sweater bearing gold numerals.

Lloyd Weaver, '29, is working for the Supreme Dairy at Pasadena, California. Lloyd writes that the dairy is modern throughout, and that he enjoys his work very much. He will be pleased to hear from friends at 1379 Elizabeth Street, Pasadena.

Hazel Stephenson, '29, is giving private music lessons at Gary, Minnesota. Adolph Reske, '24, is married and working in Fargo, North Dakota.

Ebenhard Gandrud, '24, is a freshman in the College of Agriculture at University Farm this year.

Arnold Swanson, '24, is farming near Hallock.

Mr. and Mrs. Frank Short, (Gertrude Pulkrabek, '24, Frank 1919-21), and three children live on a farm near Angus.

Cora Walters, '25, nurse at Sunnyrest Sanatorium, has been ill at the Bethesda Hospital, Crookston, but has now returned to her home.

Alfred Voxland, '24, is farming near McIntosh.

Robert Nelson, '24, is operating a lunch counter, "The Blue Moon," at Crookston.

Mr. and Mrs. Howard Balk (Howard '25) reside at 1388 Raymond Avenue, St. Paul.

Mr. and Mrs. Elmer Hamre (Selma Hamre, '25) are farming near Fertile. They have two daughters.

Ross Jacobson, '25 (is farming near Clitheral, while Theodore Neske, '25, is on a farm near Princeton.

Mr. and Mrs. Dudley Winslow, (Amy Onneland, '25) are living at 508 Chestnut street, Grand Forks, North Dakota.

Mr. and Mrs. Oliver Langei (Helga Sorenson, '25) and three children are on a farm near Plummer.

Mr. and Mrs. J. E. Sletten (Ella Christianson, '26) and daughter, Beverly, live at Mentor.

Lawrence Letnes '26, is farming near Hillsboro, North Dakota; Arthur Pederson, '26, near Clearbrook, and Theodore Ystenes, '26, near Bejou, Minnesota.

Mr. and Mrs. Ralph Erickson, Helen Hovland, '28, Ralph '27) live at 1501 99th Avenue West, Duluth.

Ruby Hanson, '27, is bookkeeper for the Singer Sewing Machine company at Crookston.

Lowell Ryden, '29, is engaged in grain and dairy farming near Hallock. Lowell is still interested in music, for he writes that he plays in the band, sings in the Lutheran Church choir, and sings first tenor in the Hallock Male quartet.
