

Northwest School News

Six issues published annually by the Northwest School of Agriculture, University of Minnesota, Crookston. Entered as second class matter, December 2, 1916, at the Post Office at Crookston, Minnesota, under the Act of August 24, 1912.

Volume XXXIV

Crookston, Minnesota, August-September, 1950

Number 5

Fall Term Opens Monday, October 2

The fall term of the Northwest School of Agriculture opens with registration of new students on Monday, October 2, and with registration of former students continuing until noon of October 3. Classes for the fall term will start at 1:15 P.M. on October 3.

With an advance room reservation list of 355 students on September 15, a capacity enrollment of 400 is expected for the opening of the term.

All vacancies in the teaching positions have been filled. Three new faculty members appointed to fill vacancies on the teaching staff this year include Miss Donna Kissel of St. Paul, instructor in voice; Richard M. Jackson of Moorhead, assistant in physical education, and Miss Marie Murphy of Watertown, instructor in home economics and dining hall manager.

The regional Schools of Agriculture in Minnesota offer exceptional educational advantages to farm boys and girls. The courses of study are so arranged that students get a logical sequence of practical vocational training in agriculture and home economics subjects along with the essential academic work. Courses offered to boys and girls with eighth grade training or better, include the three-year course, four-year regular course meeting college entrance requirements, and special courses in agriculture, home economics, and business for high school graduates. All courses at the Northwest School and other Schools of Agriculture train farm boys and girls primarily for country life and good citizenship. Home project work carried on by students on the farm during the summer months enables the student to put into practice on the farm and in the home the latest ideas which make for efficiency in farming and homemaking.

An unusually high percentage (between 20 and 30 per cent) of the four-year graduates of the Northwest School have been entering colleges and universities, each year, for advanced training. Students attending the University Schools of Agriculture are eligible for State Tuition and Transportation Aid the same as in public schools.

Homecoming, October 28

Homecoming for Northwest School alumni, former students, and faculty members has been set for Saturday, October 28. Preliminary plans for Homecoming include the rally and pep-pest on Friday evening, October 27; Homecoming assembly at 11:00 A.M. and the Homecoming football game with West Central School at 2:00 P.M. on Saturday. The Homecoming dance and party will be held during the evening as a climax to the day's festivities.

Three New Faculty Members Appointed

Three new staff members have been appointed to fill the vacancies created by the resignation of former staff members at the Northwest School.

Miss Marie Murphy of Watertown, Minnesota, assumed her position as instructor in home economics and dining hall manager on August 17. She is filling the position formerly held by Miss Julia Shea who resigned because of ill health. Miss Murphy is a graduate of the University of Minnesota in home economics and received her Master of Arts degree at the University in 1949.

Miss Murphy

Last school year, Miss Murphy was head of the home economics department at Reedley College and High School at Reedley, California, and previous to that she was head of the home economics department at Ellendale State Normal, Ellendale, North Dakota. She has also had teaching experience in the Foley, Buhl, and Duluth high schools. This past summer she has taken research work in the Graduate School at the University of California, Berkeley, California.

Miss Donna Mae Kissel of St. Paul has accepted the position as instructor in voice formerly held by Miss Winifred Erickson (Mrs. Marloe D. Anderson). Mrs. Anderson will teach at the Bloomington School this year in Minneapolis while her husband is completing his school work in that city.

Miss Kissel is a graduate of Central High School in St. Paul, completed her work in music at the University of Minnesota and received her B. A. degree with the class of 1949. In addition to her University work, Miss Kissel has had special course work at the McPhail School of Music in Minneapolis. She has had a broad experience in St. Paul Community Service

Miss Kissel

as a teacher of music and dancing and as private instructor in piano and voice in St. Paul. During the past summer, she was employed as a reservationist at the Northwest Airlines, St. Paul.

Richard M. Jackson of Moorhead, new instructor in physical education, will fill

(continued on page 2, Col. 2)

New Heating Plant Nearing Completion

A new modern, and efficient heating plant will be in operation for the opening of the Northwest School on October 2. Three new water-tube boilers are being installed to replace the obsolete flue type of boiler which has been used in the heating plant since its installation in 1913. The total heating plant expansion and improvement program will cost approximately \$250,000.

One of the water-tube boilers is now complete and is being warmed up for steam generation not later than September 25. The other boilers will be completely installed by October 10. One boiler is adequate to take care of the heating needs during the early fall months.

The new type of boiler is so constructed that it will handle any type of fuel. It is especially equipped to handle lignite as well as other types of steam fuels. All boilers are equipped with automatic electrically-operated stokers and many other improvements which will make the new heating plant modern in every respect. In order to make room for the added machinery, water softener for the steam boilers, and other equipment, an addition was built on the south side of the present heating plant.

(continued on page 4, Col. 2)

1,000 Farmers Visited Northwest Station on Crops Day, August 8

A new attendance record of more than 1,000 farmers was set on Crops and Soils Day at the Northwest School and Station on August 8. The full program for the day started at 9:30 A.M. and continued until 5:30 P.M.

Veterans On-the-Farm Training classes were given special attention during the day with their tour of crop experimental work starting at 9:30 A.M. and continuing throughout the morning. The livestock and poultry tour for the crops men started at 10:30 A.M. under the direction of O. M. Kiser and H. D. Fausch of the Animal Husbandry Department and A. M. Pilkey, poultryman. The veterans made the tour of the livestock and poultry work during the afternoon.

Officers and directors of the Red River Valley Crops and Soils Association held their annual meeting and election of officers at 10:30 A.M. in the school library.

A dinner was held in the school dining hall for the departmental speakers and guests. Coffee and cream was served to the large number of picnickers on the campus during the noon hour.

B. C. Beresford Assists With Three District Flower Shows

Three very successful district flower shows were held by the Ninth District Horticultural Society during August. The Shows were held at Ada, August 22; Thief River Falls, August 23; and Roseau, August 24. B. C. Beresford, secretary of the Ninth District Horticultural Society and Horticulturist at the Northwest School and Station, stated that the district show at Ada with 350 entries was the largest show ever held by the Society.

The Munn's Jewelry Company trophy for the highest ranking exhibitor at the three shows was won by Mrs. Ann McCagherty of Warroad with Reverend and Mrs. Hoffman of Ada ranking second and Ted Markus of Bemidji, third.

The Oftedahl gladiolus trophy was won by Reverend Hoffmann of Ada with Ted Markus of Bemidji, second, and Mrs. Ann McCagherty, third.

Mr. Beresford reported excellent attendance at meetings held at all three shows.

Speakers at all three meetings were O. C. Turnquist, St. Paul, Extension Horticulturist, University of Minnesota; B. C. Beresford of Crookston; and Mrs. Peter Grant of Stephen, president of the Ninth District Horticultural Society, spoke at the Thief River Falls and Roseau meetings.

Garden and Flower Society chairmen of the different shows included Mrs. E. E. Carmen, Ada; Mrs. Albert Swanson, Thief River Falls; and Mrs. R. V. Harris, Roseau.

O. C. Turnquist of St. Paul served as judge of the three shows. The Red River Valley Development Association furnished all premium ribbons.

R. R. Valley Crops And Soils Association Elects Officers On Crops Day

The Red River Valley Crops and Soils Association held its annual business meeting and election of officers in connection with the Crops Day held at the Northwest School on August 8.

Albert Kopecky of Angus, class of '23, served as president of the organization for the past year. V. M. Gibbons of Crookston, a member of the class of '21 at the Northwest School, was elected as president for the year 1950-51. Other officers elected for the year include: Peter Schirrick, Sr., of Red Lake Falls, vice-president; Carl Ash of Crookston, secretary, and Otto Hoppe of Crookston, treasurer.

(continued in Column 2)

CROSS-COUNTRY

H. H. LYSAKER

The popular interschool sport of cross-country should be just as attractive this year as in past years with interesting meets being arranged with Morris and Grand Rapids. Meets are also being arranged with the Crookston Central High and other schools in the area who plan on having cross-country teams.

Co-captains Richard Nagle of Grace-ton and Roger Kasprick of Angus, with three other teammates, Wesley Luchau of Gary, Henry Troska of Warren, and Donald Mosbeck of Red Lake Falls, will give the Northwest School a good nucleus for another strong team this year.

The cross-country schedule is as follows: October 7—Crookston Central, here; October 13—Grand Rapids, there; October 20—Morris, here; November 1—Conference Meet at Grand Rapids.

SOILS ASSOCIATION ELECTS OFFICERS

(continued from column 1)

County directors elected were: W. S. Ash, St. Vincent—Kittson; Gustav Kveen, Roseau—Roseau; Robert Backstrom, Warren—Marshall; Peter Schirrick, Sr., Red Lake; John C. Hanson, Bagley—Clearwater; V. M. Gibbons—W. Polk; Melvin Flaskerud, Fosston—E. Polk; D. J. Nichel, Hendrum—Norman; Henry Nabben, Lake Park—Becker; Art Larson, Rothsay—Wilkin; Wm. A. Ohlragge, Ottertail; Theo. Thompson, Fergus Falls—W. Ottertail; Bert Vigen, Thief River Falls—Pennington; Albert Gillie, Williams—Lake of the Woods; Anton Auer, Mahnommen—Mahnommen; and H. M. Trowbridge, Comstock—Clay county.

THREE NEW FACULTY MEMBERS APPOINTED

(continued from page 1)

the position formerly held by E. F.

R. M. Jackson

Bennett. Mr. Bennett, because of ill health, will be unable to resume his duties this school year. Mr. Jackson received his high school and college training in Moorhead and graduated from the Moorhead State Teachers College with the class of 1950. With physical education as a major in his college course and a letter winner in football in high school and college, Mr. Jackson will give the Northwest School the benefit of his training and experience in football and cross-country. In addition to his teaching and coaching duties, Mr. Jackson will serve as counselor to the boys in Stephens Hall. Mr. and Mrs. Jackson will reside in the apartment at Senior Hall.

Sale Catalog of Minnesota No. 2 Swine Issued

A list of twenty-nine choice boars of the Minnesota No. 2 swine has been listed for sale in the sales catalog just published by the Northwest School and Station, Crookston. The outstanding performance record of Minnesota No. 2 boars for the production of market hogs has created a great demand for this breed. Breeders of purebred Minnesota No. 2 or market hogs, who are interested in the fall listing of boars at the Northwest School and Station, should write H. D. Fausch, Northwest School and Station, Crookston, Minnesota, for the catalog.

New Hog House Unit Completed

What is expected to be the first unit of a large farrowing house for swine at the Northwest School and Station has now been enclosed and is nearly ready for occupancy. The experimental farrowing house is made out of cedar logs of the Berger Construction Company and will have, when completed, eleven farrowing pens, the scale room, the feed room, and headquarters office for the swine herdsman and assistant herdsman. Electric wiring is being installed which will insure adequate electric current to operate pig brooders in each pen.

According to present plans, the hog house will be extended as fast as funds can be provided whereby all of the farrowing of the swine in the Swine Breeding Project will be done at the new location. The older hog house will be used for the wintering of the swine herd. The swine litters in the breeding project will be carried in yards throughout the summer in the three-year rotation pasture system on the West Farm of the Experiment Station.

The Regional Swine Breeding Program which is being carried on at the Northwest School and Station is a co-operative project with the Regional Swine Breeding Laboratory with headquarters at Iowa State College, Ames. Dr. L. M. Winters of the Department of Animal Husbandry, University Farm, St. Paul, is state leader in the Swine Breeding Project. The local work is being directed by O. M. Kiser and H. D. Fausch of the Animal Husbandry Department of the Northwest School and Station.

New 6-Inch Water Main Installed on East Campus

Due to the rapid deterioration of the 4-inch cast iron water main on the east campus at the Northwest School, it has been necessary to replace the line with a 6-inch water main. The new water main was given special treatment and insulation against electrolysis and is expected to last through the life of the school and station. The new 6-inch water main gives an added measure of protection against fire. The Northwest School campus now has, with the 75,000 gallon water storage tank, water and

(continued on page 4, Col. 2)

C. G. Selvig Writes History Of Northwest School And Station

A history of the Northwest School and Station has been written by C. G. Selvig, superintendent of the Northwest School and Station (1910-1927). Mr. Selvig, during his three terms as Congressman from the 9th Congressional District, following his service at the school and during recent years, has kept in close touch with the Northwest School and Station and can give an accurate record of events as they took place.

The history is in manuscript form and can be published as soon as sufficient interest and financial backing is provided. Alumni and friends of the Northwest School and Station interested in getting the publication started should contact Mr. Selvig at 1303 Georgina Avenue, Santa Monica, California.

Potato Feeding Project To Be Continued

The cooperative Potato Feeding Project, in which potatoes have been fed to feeder cattle, will be continued again this year at the Northwest School and Experiment Station. The Department of Animal Husbandry, University of Minnesota, St. Paul campus, is assuming responsibility for the purchase of the feeder cattle on the St. Paul market. The cattle are scheduled to arrive at the Northwest Station during the last week of September. It is expected to have the project underway by October 1.

Four lots of steers will again be fed in the Potato Feeding Trial. This year, one lot of choice steers will be fed in comparison with the three lots of medium steers.

The Red River Valley Potato Growers' Association is cooperating in the project and is assisting in the securing of potatoes for the feeding trial. The United States Department of Agriculture, through the Bureau of Animal Industry, Washington, D. C., is cooperating to the extent of furnishing the funds for some of the labor involved in the feeding trial. The general direction of the project is under the guidance of A. L. Harvey, chief of the Division of Animal Husbandry, University Farm, St. Paul, while local leaders of the project will be O. M. Kiser and H. D. Fausch of the Northwest School and Station.

A lean-to type of potato storage house is being constructed joining the steer-feeding shed for the temporary storage of the potatoes used in the feeding trial.

Very gratifying results obtained from the first two years of the Potato Feeding Trial indicate that cull or No. 2 potatoes may be worth from fifty to sixty cents per bushel when fed to cattle. The potato growers of the Red River Valley are very desirous of keeping off the market all cull and No. 2 potatoes whereby the quality standards of the stock will enhance or build-up the reputation of Red River Valley table stock and certified seed potatoes.

Northwest School Briefs

***News regarding Northwest School Alumni and Former Students:

***Silas B. Hviding has recently been appointed as Assistant General Superintendent of the Peavey Elevators Company, Minneapolis. His new home address is 1277 Charles Avenue, St. Paul, Minnesota.

***J. E. Bahner, former principal of the Junior High School at Crookston and former football coach at the Northwest School in 1916, visited the school on Saturday, July 22. Mr. Bahner is now principal of the Junior High School at Cleveland, Ohio.

***Klaas Iwema of North Holland, Netherlands, visited the campus on July 23 with Wesley Luchau of Gary, a Northwest School student.

***Joyce Anderson of Caledonia, North Dakota, will teach in a rural school at Hannaford, North Dakota, this coming year.

***Nila Finney of Georgetown won top honors in food canning in competition at the Minnesota State Fair, St. Paul, in August.

***Ebenhard Gandrud of Owatonna, Minnesota, visited the school on September 8.

***Mr. and Mrs. Gustav Walters of Vineland, New Jersey, visited the school on September 6. Mr. Walters was poultryman at the Northwest Station in 1905-06.

***George Roisum of St. Paul visited the campus on September 14.

***J. W. Milner former registrar and instructor at the Northwest School, is serving as Civilian Personnel Officer, U. S. Government Service. His home address: Apt. 402, Bainbridge Apartments, 900 Armour Blvd., Kansas City, Missouri.

***Earl Lindberg and his family visited the school on July 6. Earl is serving as an instructor in the Veterans' On-the-Farm Training Program in the high school at Garber, Oklahoma.

***Robert Simmons is teaching in the high school at Sherwood, North Dakota, this school year.

***John Stanko visited the campus on August 17. He makes his home in Minneapolis.

***Phyllis Lerud has been serving as 4-H Club Agent for West Polk county during the past summer with headquarters at Crookston, Minnesota.

Marriages

***Miss Winnifred M. Erickson of Litchfield, Minnesota, to Marloe D. Anderson of Crookston at Litchfield on August 19. Mr. and Mrs. Anderson will make their home in Minneapolis. Mrs. Anderson has accepted a teaching position in the Bloomington Schools.

***Miss Eunice Arlene Peterson to Earl L. Waterworth on June 29 at Stephen, Minnesota. They will live at Newfolden, Minnesota.

***Miss Vernie Nordquist to Lyle Alvstad of Ashby, Minnesota, on June 11. They are making their home in Ashby, Minnesota.

***Miss Margaret Salenty to Ernest
(continued on page 4, Col. 3)

Football Prospects Good

Football and cross-country as major sports take the spotlight on the physical education program at the Northwest School during October and early November. All available equipment in football will be used to accommodate the sixty to seventy boys who will be out for that sport. Coach and Physical Education Director H. H. Lysaker will have the new physical education instructor, Richard M. Jackson, as an assistant coach in football and cross-country and in addition will have considerable local assistance in both football and cross-country.

Coach Lysaker reports that sixteen football lettermen, two being regulars, are expected to perform on the Northwest School gridiron. Graduation last spring took nineteen lettermen from the squad so a big rebuilding job will be necessary. The first official practice session is slated for 9:30 A.M., Monday, September 25. Two daily practices will be held during the week of pre-school workouts. Twenty-five boys are expected back for the pre-school practice.

Captain Ted Zumbusch, Argyle, heads the list of lettermen. Other returning lettermen are: Charles Holmquist, Hallock; Ivan Lindstrom, Argyle; Rodney Pape, East Grand Forks; Perry Brantner, Georgetown; Bruce Bohnsack, Hillsboro, N. D.; Gordon Love, Euclid; John A. Johnson, Pelican Rapids; Kenneth Ewing, Crookston; Leroy Zak, Angus; Ronald Dahl, Kennedy; John Munter, Fosston; Kenneth Szymanski, Thief River Falls; Russell Milner, Clearbrook; and James Brubakken, Crookston.

The 1950 schedule, as announced by Coach Lysaker, is as follows: October 7—Fertile, here; October 12—Waubun, there; October 21—Grand Rapids, there; October 28—Morris, here (Homecoming); November 1—Warren, here; November 3—Mayville, N. D., here (tentative).

1950-51 Teaching Staff Announced

All positions of the teaching staff of the Northwest School for the 1950-51 school year are filled. Members of the faculty, as announced by Superintendent T. M. McCall, are:

A. M. Foker, H. W. Soderburg and William Barron—agricultural engineering; O. C. Soine—agronomy; E. N. Reiersgard—registrar and mathematics; O. M. Kiser and H. D. Fausch—animal husbandry; A. M. Pilkey, poultry husbandry; B. C. Beresford—horticulture and forestry; Miss Margaret Larsen, Mrs. Alice Ittner, Miss Jean Kjorlie, and Miss Borgni Skorpen—English, speech and dramatics; the Misses Retta Bede, Verna Stokke, and Marie Murphy—home economics; the Misses Sally Maher and Donna Kissel—music; H. H. Lysaker and Richard M. Jackson—physical education and athletics; Miss Fae Hughbanks—business training; Wm. C. Sundberg, science; Miss Thea Myren, school nurse; and T. M. Pulkrabek, John A. Campbell, and O. Sanderson—veterans' On-the-Farm Train-

(continued on page 4, Col. 1)

Faculty To Present Program Sunday, October 8

The traditional faculty Sunday evening program will be presented to the students and friends of the Northwest School at 7:30 P. M. on Sunday, October 8, in the school auditorium. Members of the English and Music Department faculty taking part in the program will be the Misses Sally Maher, pianist; Donna Mae Kissel, vocalist; Jean Kjolrie, Borgni Skorpen, Margaret Larsen, and Mrs. Alice Ittner, readers.

Weather Summary

The crop year of 1950 in the Red River Valley will be long remembered, according to O. C. Soine, agronomist at the Northwest School, for its spring floods, its late planting season, its cool summer, paradoxical crop yields, and its escape from a late August killing frost. Only spotted injury from frost occurred in the Valley in contrast to the killing frost which struck areas south in Minnesota and adjoining states. Mr. Soine pointed out that the mean temperature for August was 63.05° as compared to a long-time average of 67.31°.

The precipitation of July and August was 2.68 inches as compared to the 50-year average of 5.72 inches. The precipitation in early summer was adequate to carry most of the grain crops to maturity. Yields of potatoes and sugar beets will be materially affected by lack of rainfall during August. The heavy rainfall during May of this year brought the eighth month total precipitation to 16.77 inches as compared to the 50-year average of 15.41 inches.

Halliday Develops Self-Propelled Swather

Kenneth Halliday of Fosston, a former student at the Northwest School, has joined the ranks of inventors and developed a farm machine of promise to grain crop producers.

The machine is a self-propelled swather which is highly maneuverable and can be operated into corners of fields and over rough land. The swather can operate at a speed of up to seven miles per hour. It is constructed on a three-wheel chassis and the steering is done by the rear wheel and each wheel has a hydraulic brake. Hydraulic controls are also used to adjust the height of the sickle and the reel. A 20-horsepower engine is mounted just ahead of the rear wheel; the operator's seat is just ahead and above the engine.

Halliday has made four of the machines. He has patents.

1950-51 TEACHING STAFF ANNOUNCED

(continued from page 3)

ing Program. The school physician will be announced later.

Additional subjects taught by regular instructors include history, civics, sociology, economics, marketing, applied art, public health, home nursing, first aid, and journalism.

1,000 FARMERS VISITED NORTHWEST SCHOOL CROPS DAY

(continued from page 1)

A sharp shower at noon on Crops Day, accompanied by a severe hail storm south of Crookston, did not interfere with the open forum discussion of crops and the afternoon field tour. Dr. Harold Macy, director of the Minnesota Experiment Station, and Dr. E. R. Ausmus of the Division of Agronomy of the University of Minnesota, both St. Paul campus, and Superintendent T. M. McCall of the Northwest School were speaker on the main program for the day.

T. H. Fenske, associate director of field operations at University Farm, St. Paul, presided at the open forum on crops problems. Men taking part in the open forum from the University Farm, St. Paul, campus were C. E. Mickel, A. G. Peterson, and F. G. Holdaway of the Division of Entomology; E. R. Ausmus, J. W. Lambert, and J. O. Culbertson of the Division of Agronomy and Plant Genetics; J. J. Christensen, C. E. Logsdon, Division of Plant Pathology and Botany; T. L. Aamodt, state entomologist; and Paul Burson, Soils Testing Laboratory, all of University Farm, St. Paul. A live exhibit of corn borers collected in the Red River Valley by T. L. Aamodt and son attracted a great deal of attention.

O. C. Soine, agronomist, and B. C. Beresford, horticulturist, both of the Northwest School and Station, conducted the tours of the experimental plots. Crops specialists from St. Paul assisted with the tour.

NEW HEATING PLANT NEARING COMPLETION

(continued from page 1)

The contract for the general construction of the building was awarded to the A. C. Nasvick Construction Company, Bemidji; the boiler installation contract was awarded to the Commonwealth Electric Company, Minneapolis; the plumbing contract was awarded to the Kohl Plumbing Company, Minneapolis, and the electrical installations were awarded to the Kehne Electric Company, St. Paul. Mr. Frank Sibbey, engineer from the Office of the Supervising Engineer, University of Minnesota, Minneapolis, is serving as inspector on the construction.

A new feature of the steam plant operation will be the electric controls at the central heating plant in which the steam can be shut off or turned on at any one of the buildings from the central control room.

Considerable work has been done also in the steam heating tunnel during the summer months. New concrete footings have been placed under the pipe racks holding the steam mains which will overcome the hazard of rusting corrosion which has been a problem during recent years.

NEW 6-INCH WATER MAIN INSTALLED

(continued from page 2)

fire protection equal to what can be secured in any city of the Red River Valley.

Parents' Day, November 22

The annual Parents' Day at the Northwest School will be held on Wednesday, November 22. Parents will have the opportunity on the morning of that date to visit regular classes, view the annual student home project show, and attend the annual meeting of the Northwest School Parents' Association. Dinner for the parents will be served at the school dining hall from 11:30 A. M. until 1:00 P. M. At 1:30 P. M., a student program will be presented in the auditorium followed by the coffee hour at 3:45 P. M.

Parents attending the Parents' Day will be able to take their sons or daughters home with them for the Thanksgiving Day week-end holiday.

NORTHWEST SCHOOL BRIEFS

(continued from page 3)

A. Ayotte on July 29 at Hollywood, California.

***Miss Norma Strand of Mentor to Arvid J. Olson of Crookston on July 2 at Mentor, Minnesota. Their address is c/o Northwest School, Crookston.

***Miss Margaret Ann Johnson of Leonard, Minnesota, to Dr. Carl Wm. Seeman on August 19 at Clearbrook, Minnesota.

***Miss Eileen Lien to Don Alberts of Minneapolis on June 17.

***Miss Ruth Olson of Blanchard, North Dakota, to Robert Simmons, formerly of Crookston, on August 26.

***Miss Aileen Rose Matter to John S. Melis on June 13 at Callaway, Minnesota.

***Miss Darlene Rivard of Oslo to James Kontz of Lismore, Minnesota, on August 26.

***Miss Gelaine Jensen to Arthur Gredvig on June 10, at Fertile, Minnesota.

***Miss Anna Mae Ecklund of Lowry, Minnesota, to Leonard C. Blade of Holmes City, on June 14. They are making their home at Alexandria, Minnesota.

***Miss Audrey Lind to Robert Davids, Jr., on April 22 at Minneapolis, Minnesota.

Births

***To Mr. and Mrs. Jesse DuChamp (Gunhild Nesland), a daughter, on July 18, at Plummer.

***To Mr. and Mrs. Robert R. Miller (Katherine Ann Viker), a son Keith Douglas, on July 27. Their address is 340 E. Grand Blvd., Apt. 300, Detroit 7, Michigan.

***To Mr. and Mrs. James Halliday of Fosston, a daughter, on August 9.

***To Mr. and Mrs. Gordon Johnson, a daughter, Karen, on August 1.

***To Mr. and Mrs. Donald LaPlante, a son, Richard Warren, on February 15. Their home address is 834 Talbot Avenue, Albany 6, California.

***To Mr. and Mrs. Ira Mjelde (Marjorie Ophus) a son on July 12 at Crookston.

**PLAN TO ATTEND
HOMECOMING AT
NORTHWEST SCHOOL
OCTOBER 28**
