## ALUMNI REUNION AND 45TH ANNIVERSARY PROGRAM — JUNE 30

A call to all graduates of the Northwest School has been made by Kenneth Miller of Crookston, '46, president of the Northwest School Alumni Association, to assemble for class reunions at the Alumni Reunion on Saturday, June 30, at the Northwest School.

Members of all classes and all former students are asked to return for Alumni Reunion Day to observe the 45th anniversary of the founding of the Northwest School and picnic with former classmates. A large and enthusiastic general arrangements committee, headed by Paul Engelstad, '16, has been hard at work making arrangements for the 1951 reunion. The work of planning and arranging for the school anniversary and alumni reunion has been assigned to a number of committees. The over-all plans for the day and evening were decided by the chairmen of the committees.

The Invitations Committee is inviting all former staff members to return for the day to visit with their former students. Former faculty class advisers are asked to join their classes in their class reunions. Alumni and former students are asked to contact their classmates, especially those having change of address in recent years. Approximately one-half of the alumni have kept up their mailing addresses with the Northwest School and remain on the school's mailing list.

The program for the day will be highlighted with addresses from the University administration. President J. L. Morrill has been invited to give the principal address and name one of the school buildings. C. G. Selvig, superintendent of the school from 1910-1927 and former Congressman from the 9th district of Minnesota, is planning to be present for the occasion. Dr. A. A. Dowell, superintendent from 1927-1937, is recuperating from a long illness and will attend the reunion if he is able. Lt. Colonel Martinus Stenseth (now retired), Kelly Field, Texas, visited the school on May 18 and reported that he would return for the reunion.

Old-timer music groups and more recent music talent from the alumni will appear on the afternoon and evening programs. The afternoon program will start at 2:00 o'clock and the evening program, alumni business meeting, and dance will start at 8:00 o'clock. Prizes for alumni coming the greatest distance, oldest alumni, largest class present, and most recently married alumni will be awarded.

### Committees Appointed

Committees appointed for the school

anniversary recognition and alumni reunion include Paul Engelstad, Thief River Falls, general chairman; Superintendent T. M. McCall, ex-officio member of all committees.

**DECORATIONS:** Kenneth Miller, chairman; Mrs. Alice Pierce, Mr. and Mrs. Wm. Barron, Jr., Armin Ross, Michael Harty, Elvin Moran, Richard Schleicher, Paul Engelstad, E. N. Reiersgord, advisory; **PROGRAM AND ENTERTAINMENT:** J. E. Wilder, chairman; Mrs. Emma Osterloh Clover, Mrs. Marie Glaserud, Roger Kasprick, Kenneth Miller, and Superintendent T. M. McCall, advisory; **PUBLICITY:** Ole Flaata, chairman; H. H. Lysaker; **SELVIG'S BOOK:** Ole Flaata, chairman; A. M. Pilkey; Thorval Tunheim, Harold Grandy; **SPECIAL RECOGNITION AND INVITATIONS:** Herman Skyberg, chairman; A. M. Foker, Harry Hedin, Anchor Wurden, Mrs. Harry Miller; **RECEPTION:** Berneil Nelson, chairman; Mrs. T. M. McCall, Mrs. Darragh Geddes, Mrs. Evelyn Peterson, Merlene Eisert, Clarence Sargent, Peter Fehr, and Retta Bede, advisory; **REGISTRATION:** Archie Lee, chairman; Charles Vind, Theodore Aas, Wm. Barron, Sr.; **REFRESHMENTS:** Veral Gibbons, chairman; Dr. Harry Hedin, and Howard Balk.

### Officers

Officers of the Northwest School Alumni Association are: Kenneth Miller, Crookston—president; Armin Ross, Fisher—vice-president; Berneil Nelson, Crookston—secretary; and Charles Vind, Crookston—treasurer.

## 350 Attend Cattle Feeders' Day

Cattle Feeders' Day, held at the Northwest School and Station on April 20, brought together some 350 potato growers and cattle feeders from the Red River Valley counties of Minnesota and North Dakota.

Speakers on the program and subjects presented were: Wm. Case, executive secretary of the Red River Valley Potato Growers' Association, East Grand Forks—Livestock Feeding Possibilities with Potatoes in the Red River Valley; E. F. Ferrin, chief of the Division of Animal Husbandry, University Farm, panel discussion leader, with the following taking part in panel—O. A. Flaata, Flaata Farms Company, Grand Forks, N. D.; Thorvald Moe, and Bert Bushey, East Grand Forks. A. L. Harvey of the Division of Animal Husbandry, University Farm, St. Paul, (continued on page 4, col. 3)

## Interesting Program Arranged For Women's Camp

The 26th annual Women's Camp will be held at the Northwest School June 11-14. 150 women are expected to attend the Women's Camp. A larger than average advance enrollment was noted on May 15.

An excellent program for the three-day camp has been arranged. A program of lecture-demonstrations, handicraft, and entertainment has been set up for the camp that will be of interest to the women who attend.

Registration for the camp will start at 3:00 P. M. on Monday, June 11. The first meal will be served at 6:00 P. M. on that day. Camp members will live in the two girls' dormitories. On Monday evening, the main feature of the program will be the reception to camp members.

On Tuesday, the program will include two lecture-demonstrations by Miss Marie Disbrow, district home economist from the Minneapolis Branch of Frigidaire Sales Corporation. She will speak on the making of frozen desserts, (continued on page 4, col. 1)

## More Than 800 Members To Attend 4-H Club Week June 18-23

County quotas, totaling some 850 boys and girls, have been set up for 4-H Club Week at the Northwest School for the week of June 18-23. County quotas were set primarily to give every 4-H club in the district an opportunity to send representatives to the club week. Older club members are urged to attend the sessions so they can be of help to the younger members of their home clubs.

In the absence of Osgood Magnusson, district 4-H club supervisor, Norman Mindrum, assistant state 4-H club leader of 4-H club work, will serve as 4-H camp leader. He will be assisted on the teaching staff by faculty members of the Northwest School and specialists from the Agricultural Extension Division of the University of Minnesota.

All registrations for the week must be made through the county 4-H club agents or county agricultural agents not later than June 4.

Registration for the southern group of counties starts on Monday, June 18, and this group includes: West and East Polk, Mahnomen, Norman, Clay, Becker, West and East Ottertail. Registration for the northern group of counties will be held on June 21, and this group includes: Red Lake, Pennington, Clearwater, Roseau, Kittson, Marshall and Lake of the Woods.

A full program of instruction will be given in all of the major 4-H club projects for both boys and girls.

## 1951 Potato Feeding Trial

H. D. FAUSCH

The third of a series of feeding trials in which cull and surplus potatoes were fed to beef steers was completed April 18, 1951, at the Northwest School and Experiment Station. As in the two preceding potato feeding trials, it was found that potatoes can be utilized as a major portion of the ration for beef cattle to produce very good gains and can be an exceedingly economical feed.

As in the two previous feeding trials, twenty-four yearling beef steers were finished on various potato rations. These steers were divided into four lots of six steers each. Lot I steers were used as a check lot and were therefore fed a standard ration consisting of hay and grain. The remaining three lots were fed rations consisting of whole fresh potatoes and oats straw.

Of the three remaining lots, Lot II steers received only straw and potatoes. Lots III and IV had a pound of protein supplement added to their ration daily to determine if the low protein content of potatoes and straw might be a factor in reducing gains. The rations in Lots III and IV were therefore identical consisting of potatoes, straw, and one pound of linseed meal daily. The basic difference in these two lots was that Lot III steers were medium grade steers when purchased (as were the steers in Lots I and II also) and the Lot IV steers were choice grade feeders at the beginning of the trial.

The trial achieved good results as in the past. The daily gains in the various lots were satisfactory averaging 2.33 pounds in Lot I; 1.57 pounds in Lot II; 1.90 pounds in Lot III; and 1.96 pounds in Lot IV. It was found that it required a little over 3000 pounds of potatoes and about 300 pounds of straw and 50 pounds of linseed meal to produce 100 pounds of gain in Lots III and IV. In Lot II where only potatoes and straw were fed, it required almost 4000 pounds of potatoes and about 500 pounds of straw to produce the same gains. Based on the feed prices which were current at the time the trial was completed, whole fresh potatoes were worth 60 cents per cwt. in Lot II, 70 cents per cwt. in Lot III, and 73 cents per cwt. in Lot IV as a cattle feed.

The trial, as well as demonstrating that cull and surplus potatoes are a profitable livestock feed, also proved that it pays to balance a low protein ration such as the potato-straw combination. This was pointed out effectively because the steers in Lots III and IV, being fed a protein supplement, re-

## Atoms Help Test Fertilizer

O. C. SOINE

Agricultural workers are putting the radio-active atom to work in a new way—testing the effectiveness of commercial fertilizers. Soilmen are adding radio-active phosphorus to the soil and then tracing its journey up through the roots and into the various parts of the plant by using a Geiger counter. This sensitive instrument is able to pick up and locate the radio-active particles that are given off from this activated phosphorus.

The Northwest School and Experiment Station is cooperating in a regional program to test various phosphate fertilizers and determine the amount of this element taken up by the plant from the added fertilizer and from the natural supply of soil phosphorus.

Several plots of both radio-active fused phosphate and superphosphate and the regular phosphates were put in about May 15 at the Northwest Station and seeded to Lee wheat. The grain from these plots will be sampled at regular intervals during the growing season and analyzed for phosphorus content by the Soils Division at University Farm, St. Paul. These determinations will show the amount of phosphorus taken up by the plant from the radio-active material and from the natural soil supply. The rate of uptake and the availability of the various fertilizers can also be ascertained from these tests.

This radio-active phosphorus is made available by the Atomic Energy Commission for research work in Agriculture. The material is shipped in separate containers and must be handled with special equipment. When it is added to the soil it will gradually disintegrate and after a period of six months no harmful effects will remain in the soil.

From preliminary work on alfalfa last year, the Soils Division at University Farm found that this crop will take up phosphorus from fertilizer added in the spring, that superphosphate is much more effective in supplying phosphorus to the plant than fused rock phosphate, and that heavy applications of superphosphate will supply the plant with one-third of its phosphorus requirement.

### 1951 POTATO FEEDING TRIAL

(continued from column 1)  
turned greater margins over the feed cost. The average return over feed cost in Lot II was \$95.29; in Lot III, \$115.43; and in Lot IV, \$112.05.

Another conclusion resulting from the feeding trial was that better grade feeder cattle can utilize the low quality potato-straw ration to good advantage and return a favorable profit to the feeder. This was apparent from the daily gains achieved and the margin over feed cost in Lot IV. These figures were mentioned previously. In addition, however, when the various lots were slaughtered, it was found that the carcass quality of the choice grade steers in Lot IV was approximately as satis-

(continued on page 4, col. 3)

## Honor Roll Students Announced

Five students ranked high in scholarship with straight "A" averages for the winter term which ended on March 29 at the Northwest School. The Junior class ranged first with three straight "A" students, with the Freshmen and Advanced classes having one each. Students with straight "A" averages were Adelle Larson, Twin Valley; Estelle Flatten, East Grand Forks; Robert Hausmann, Hillsboro, N. D.; Ronald Olson, East Grand Forks; and Roger Kasprick, Angus.

A total of twenty-three students made the Honor Roll, with ratings of 2.50 points or above. The Honor Roll includes: FRESHMEN—Adelle Larson; Lyle Hegrenes, Goodridge; Paul Bergeson, Fertile; Elmer Halstensgaard, Bejou; Mary Benson, Grygla; JUNIORS—Estelle Flatten, East Grand Forks; Robert Hausmann; Ronald Olson; Elaine Thureen, East Grand Forks; Evelyn Nordquist, Hawley; Gelene Balstad, Winger; Darrell Hausmann, Hillsboro, N. D.; Helen Overgaard, Dalton; Doris Tollefson, Beltrami; SENIORS—Jenell Williams, Hallock; Mary Ann Auer, Waubun; Edith Bergeson, Fertile; Leroy Krbechek, Goodridge; Dorothy Didrickson, Badger; ADVANCED—Roger Kasprick; Nyla Finney, Georgetown; Kathryn Blair, Lancaster; Maxine Moritz, Kennedy.

Fifty-one students achieved the High Scholarship rating (2.00 points to 2.49 points) and were as follows: FRESHMEN—Richard Kluzak, East Grand Forks; Carol Bourgeois, Baudette; Carol Hvidsten, Neche, N. D.; Evelyn Holy, East Grand Forks; Norma Nielsen, Hackensack; Carol Ewing, Crookston; Donald Hettervig, Hillsboro, N. D.; John Young, Hawley; JUNIORS—Dayle Kainz, Goodridge; Virginia Crookston, St. Vincent; Bernice Baird, Crookston; Geraldine Classen, Salol; Marlys Eftefield, Stephen; Mildred Peterson, Plummer; LaVerne Stromstad, Beltrami; Arleen Fagerstrom, Radium; Richard Donahue, Manvel, N. D.; Richard Swenson, Grand Forks, N. D.; Ralph Short, Peoria, Illinois; Arthur Grove, McIntosh; Dorothy Flesche, Reynolds, N. D.; Robert Dahl, Kennedy; Duane Halstensgaard, Fertile; Shirley Lavins, Crookston; Eleanor Schroeder, East Grand Forks; Agnes VanDellen, Euclid; SENIORS—Carol Green, St. Thomas, N. D.; Theresa Gruhot, Argyle; Kathryn Jensen, Underwood; Ruben Haugland, Roseau; Dora Ann Pelowski, Greenbush; Burnette Vesledahl, Winger; Dorothy Risser, Angle Inlet; Joann and Joyce Flatten, East Grand Forks; Leo Ash, St. Vincent; Betty Ann Johnson, Pelican Rapids; Lavonne Ove, Pierre, So. Dak.; ADVANCED—Adeline Kopecky, Angus; Gerald Beck, Pierre, So. Dak.; Ronald Dahl, Kennedy; Donald Mosbeck, Red Lake Falls; Duane Beltz, Hillsboro, N. D.; Bruce Bohnsack, Hillsboro, N. D.; Estle Eisert, Euclid; Patricia Jensen, Hawley; John Johnson, Pelican Rapids; Roger Nelson, Hawley; Alice Nordgaarden, Winger; Kenneth Szymanski, Thief River Falls; Dennis Warnes, Stephen.

## Construction Work On Campus Nearing Completion

All contractors included in the Heating Plant contract have completed their construction and finishing work at the Central Heating Plant at the Northwest School and Station. The final pressure test on the steam boilers, however, will have to be deferred until full utilization of the steam can be made during the fall term.

The Northwest School can be proud of its Central Heating Plant which is very modern, not only in the types of boilers used but also in the convenient arrangement of the facilities necessary for efficient operation of the steam boiler.

The water main replacement work is now practically complete. The old cast-iron water main, servicing the dormitories and other buildings around the campus quadrangle, has been replaced with new six-inch mains which have been laid in the steam tunnel. Additional new six-inch fire hydrants have been installed whereby they are at close distance to all school buildings. All new water main installations have been protected against electrolysis which has been the cause of the breakage to the old water mains that have been installed since the first water system was put in operation at the school in 1907 and 1908.

The new hog house which was constructed during the late fall and early winter was put to use as a farrowing house this spring before the roofing work was entirely completed. The Ber-

(continued on page 4, col. 1)

## Commencement At Northwest School, March 29; Diplomas And Special Awards Presented

The 43rd annual Commencement exercises were held at the Northwest School of Agriculture on March 29. A total of 148 students graduated from the Regular and Advanced courses. Theodore H. Fenske, associate director of agricultural administration, University of Minnesota, St. Paul, delivered the Commencement address on the theme "Working Together." The Reverend J. David Larsen of Crookston gave the invocation. Edith Bergeson of Fertile, president of the Senior class, spoke for the graduates, and the school choir, under the direction of Miss Donna Kiesel, sang two numbers. Superintendent T. M. McCall presented the diplomas and special awards.

Roger Kasprick of Angus, valedictorian, received a medal and was also named for the Citizenship award for boys. Alice Nordgaarden of Winger, salutatorian, received a medal, and also named for the Citizenship award for girls. Honorable Mention of Citizenship went to Nyla Finney, Georgetown; Ardis Overgaard, Dalton; Dennis Warnes, Stephen; and John A. Johnson, Pelican Rapids.

Caleb Dorr Progress Scholarships, a cash award of \$24,000, for greatest progress in the Freshmen, Junior and Senior classes, were awarded to: Freshmen—Elmer Halstengard, Bejou; Odelle Larson, Twin Valley; Juniors—Duane Halstengard, Fertile; Estelle Flat-

Krbechek, Goodridge; and Dorothy Didrikson, Badger.

The O. W. Peterson Memorial Fund gold medal award, for greatest progress in piano instruction, was awarded to Evelyn Nordquist of Hawley, with Edith Bergeson of Fertile receiving Honorable Mention. The Caleb Dorr gold medal for greatest progress in voice instruction was awarded to Laurie Mykleby of Eldred, with Yona Magnusson of Roseau and Charles Holmquist of Hallock receiving Honorable Mention. Maxine Moritz of Kennedy won the medal and trophy award for highest honors in Dramatics and Speech.

Scholarship certificates for four consecutive semesters of Honor Roll citations were awarded to Leo Ash, St. Vincent; Edith Bergeson, Fertile; Nyla Finney, Georgetown; Carol Green, St. Thomas, North Dakota; Betty Ann Johnson, Pelican Rapids; and Alice Nordgaarden, Winger.

### CROPS DAY, JULY 24

You are invited to come to the Northwest School and Experiment Station July 24 to see: new rust-resistant strains of wheat, new varieties of grain and horticultural crops, and latest fertilizer and weed control plots. Crops program and tour from 1:30 to 4:00 p.m.

(Courtesy of Grand Forks Herald)

Pictured above are a few Northwest School alumni who gathered at the Northwest School booth at the 1951 Red River Valley Winter Shows, Crookston. Reading from left to right: Dr. Harry Hedin, East Grand Forks; Superintendent T. M. McCall—Northwest School; Verle M. Gibbons, Crookston; Mrs. Paul Engelstad, Thief River Falls; Herman Skyberg, Fisher; Paul Engelstad, Thief River Falls; Walter Ross, Fisher; and Ole A. Flaatt, Fisher.

## INTERESTING PROGRAM ARRANGED FOR WOMEN'S CAMP

(continued from page 1)

for her forenoon demonstration; in the afternoon, she will give a laundry lecture on a discussion of soaps and compounds, washing methods, bleaches, etc. On Tuesday and Wednesday, Miss Adeline Snellman, home agent-at-large of the Agricultural Extension Division, University of Minnesota, will give lecture-demonstrations and her general theme is "The Shape of the Nation" which will deal with looking your best.

Mrs. H. H. Hodgson of Crookston, who has recently returned from an extended trip to Guatemala and the Central American countries, will give an illustrated talk on her observations in those countries. Odell Olson of Crookston will give a talk and demonstration on "Floor Coverings." A health film and discussion of recovery from various types of paralysis will be presented by a prominent health authority. Mrs. Harold Hagen, wife of Congressman Harold Hagen of Crookston, has been invited to speak on "Life in Washington, D. C."

Handicraft work will be of special interest this year. Women will be given opportunity to do woodcraft under the direction of A. M. Foker; flower plant propagation with B. C. Beresford in charge; and do sewing machine rug-making, appliqueing, and embroidery under the direction of specialists from the Singer Sewing Machine educational service. O. Jordahl of Grand Forks and sewing instructors from his office will be present daily for the handicraft periods.

Swimming will again be one of the features of the recreational program during camp week. A reception, feature films, and home talent productions will complete the schedules for the various days.

The open forum discussion of "Short Cuts in Homemaking" will be the feature of the closing program on Thursday afternoon.

The fee for the three-day camp will be \$8.00, which includes board, room, and entertainment. Camp members are asked to bring their own bedding and towels. Advance reservations should be made by writing to the Northwest School, Crookston, Minnesota.

Camp officers for the year are: Mrs. Tom Finney, Georgetown—President; Mrs. Raymond Clow, Orleans—Secretary; Mrs. Dan Warnes, Stephen—Treasurer; and Mrs. Arthur Kluzak, Euclid—Sergeant-at-Arms.

## CONSTRUCTION WORK ON CAMPUS NEARING COMPLETION

(continued from page 3)

ger Lumber Company of Erskine, contractors for the structure, have now completed the roofing and the general contract. Minor improvements will be made in the hog house during the year.

Graveling of the roadways by the campus cottages and the new hog house is underway at the present time.

## Northwest School Briefs

### \*\*\*News Regarding Northwest School Alumni and Former Students:

\*\*\*CAMPUS VISITOR: Lt. Colonel Clayton M. Isaacson on March 28. He has been in military service in Korea for the past eight months and was on a short emergency leave when he visited the campus. He is squadron commander of a Jet Fighter Squadron, U. S. Air Force. His address is 26th Fighter Sqdn., APO 235, San Francisco, California.

\*\*\*Raymond B. Price is a student at the Michigan College of Mining and Technology, Sault Ste. Marie Branch, Sault Ste. Marie, Michigan.

\*\*\*NEW ADDRESS: PFC Joseph DeHaan, RA 17277868, Co. D 38th Inf. Regt., A.P.O. 248, c/o P. M., San Francisco, California.

\*\*\*Merle Hennem of Donaldson won second place in the class of hard red spring wheat in the Pillsbury contest. The contest was held at Minneapolis on April 3 and wheat producers from over the entire United States competed for honors at this show. He was permitted to enter the Pillsbury contest by having the Reserve place sample of wheat at the 1951 Winter Shows.

\*\*\*NEW ADDRESS: Lyle I. Tollerud, SR 335 74 76, 8th Regiment, 84th Battalion, Company 366, U.S.N.T.C., Great Lakes, Illinois.

\*\*\*NEW ADDRESS: Chester Van Raden, FA 417-19-64, Service School Command, Engineman School, Barracks 302, U.S.N.T.C., Great Lakes, Illinois.

\*\*\*Leland Hanson is teaching at the Anaheim University High School, Anaheim, California.

\*\*\*Grant E. Peterson graduated from Gustavus Adolphus College in January, '51. He is now in service and is stationed at Fort Ord, California. His present address is Pvt. Grant E. Peterson, U. S. 55110,157; Co. E 1st Inf. Regt., 6th Division, Fort Ord, California.

\*\*\*Charles Korinta and Donavan Grenier were admitted to Alpha Zeta Fraternity at the College of Agriculture, University of Minnesota, St. Paul. This is a national honorary professional fraternity for agriculture and forestry.

\*\*\*Mr. and Mrs. Robert Clark are now located at Riverside, California, where Mr. Clark is director of audio-visual education for the area. Mrs. Clark was an instructor in horticulture at the Northwest School and Station during the school year of 1944-45.

\*\*\*NEW ADDRESS: Pvt. Wm. D. Geddes, U. S. 55-110-194, Radio Opn. Co., 16th Sig. Opn. Bn., Camp Cooke, California.

\*\*\*Kenneth Halliday, Mollie and Chris Fosbakken of Fosston have returned to Fosston after spending the winter at Redlands, California.

### Marriages

\*\*\*Dorothy Risser of Angle Inlet to John R. Olmstead of Ralston, Nebraska, on April 12. They will make their home at Ralston, Nebraska.

\*\*\*Estle Eisert to David Nelson on April 11 at Crookston, Minnesota. They

(continued in column 3)

## 350 ATTEND CATTLE FEEDERS' DAY

(continued from page 1)

gave a summary of the results of the three years of cattle feeding trials at Northwest School and Station. Cattle feeders on the panel disclosed that each were feeding 150 to 200 head of steers annually on potatoes in conjunction with other feeds such as straw and in most instances some protein supplement.

O. M. Kiser and H. D. Fausch, in charge of the animal husbandry work at the Northwest School and Station, discussed the feeding trials at the feed lots. Ole Anderson, cattle buyer of Armour and Company of Grand Forks, North Dakota, appraiser of the steers in the feed lots, also took part on the program in the yards.

Superintendent T. M. McCall presided at the program.

## 1951 POTATO FEEDING TRIAL

(continued from page 2)

factory as the carcass quality of Lot III steers, and the Lot III and IV steers dressed carcasses superior to Lot I steers on the hay and grain ration.

## NORTHWEST SCHOOL BRIEFS

(continued from column 2)

are making their home at Clearbrook, Minnesota.

\*\*\*Virginia Hanson of Crookston to Conrad Zak of Angus on March 31 at Crookston. They are making their home at Angus, Minnesota.

\*\*\*Merna N. Berg of Mentor to Charles Vind of Crookston on March 17 at Mentor, Minnesota. They are making their home in Crookston.

\*\*\*Betty Dowdle of Crookston to Steven R. Callier of Gently on May 15.

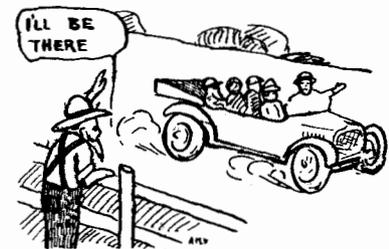

### Births

\*\*\*To Mr. and Mrs. Stanley Cornelius (Edith Peterson) of Baudette, a daughter, Alana Dawn, on April 28.

\*\*\*To Mr. and Mrs. Eugene Field (Nellie Nielson) a daughter, Valerie Diane, on January 8, at Erskine.

\*\*\*To Mr. and Mrs. Herbert Nisbet (Betty McVeety) a son, William James, on March 16, at East Grand Forks.

\*\*\*To Dr. and Mrs. O. C. Soine of Crookston, a son, on May 22.

Alumni Reunion, June 30
