

Northwest School News

Six issues published annually by the Northwest School of Agriculture, University of Minnesota, Crookston. Entered as second class matter, December 2, 1916, at the Post Office at Crookston, Minnesota, under the Act of August 24, 1912.

VOLUME XXXVI.

Crookston, Minnesota, April-May, 1952

NUMBER 3

EVENTS SCHEDULE FOR JUNE:

Women's Camp . 4-H Club Week . Alumni Reunion

Alumni Reunion, June 28

Plans are underway now for the annual reunion of alumni, students, and former students to be held at the Northwest School on Saturday, June 28.

The five-year class reunions, beginning with the class of 1912, will be held this year. Advance word from Lula Casselman MacMurchy, '12, of Los Angeles, California, that she will return for the reunion should be a challenge to all nearby alumni of that class to be present. It has been suggested that all class officers of reunion classes start a "Round-Robin" letter to their nearby classmates at once and outline plans for their class reunion.

Officers of the Northwest School Alumni Association invite all alumni to be present and recommend that the alumni reunion day be the time of other class group meetings.

Included in the program for the day will be conducted tours of the school and experiment station, picnic dinner and supper on the campus, with a program of sports on the campus during the afternoon. Coffee and cream will be furnished free to picnickers.

The Alumni Association meeting and dance will be held in the school gymnasium at 8:00 P. M. The Alumni Association will again offer prizes to the alumnus traveling the greatest distance to attend the reunion, to the member of the earliest graduation class, and the most recently married couple. Scheduled to play for the alumni dance is the Jimmy Dunn orchestra of Grand Forks, North Dakota.

Committees Appointed

Committees appointed to make preparations for and to assist with the program include the following: **DECORATIONS:** Charles Vind, chairman; Wm. Barron, Jr., Roland Brule, Ronald Viotor, Jens Bolstad, Harlan Miller, George Hendrickson, Melvin Larson, E. N. Reiersgard, and resident faculty; **ENTERTAINMENT:** Armin Ross, chairman; Clarence Sargent, James Brubakken, Michael Harty, H. H. Lysaker, A. M. Foker; **RECEPTION AND REGISTRATION:** David Short, chairman; Berneil Nelson, Victor Hodgson, Mrs. Marie Glaserud, Mrs. Evelyn Peterson, Miss Retta Bede, and resident faculty; **PUBLICITY:** David Short and T. M. McCall; **ADMISSIONS:** Martin Rud, Elvin Moran, Wm. Barron, Sr., A. M. Pilkey; **REFRESHMENTS:** E. N. Reiers-

Interesting Program Arranged For Women's Camp June 9-12

The twenty-seventh annual Women's Camp at the Northwest School of Agriculture will be held June 9-12. A large number of advance room reservations have been received to date for the 1952 camp.

An interesting program of lectures, lecture-demonstrations, handicraft, entertainment and recreation covering fields of general interest to homemakers has been arranged for the camp. Outstanding specialists have been secured to cover the wide range of subjects offered to the 1952 campers. In foods, the work will be limited this year to frozen foods. Mrs. Joyce Youngren, a member of the Northwest School home economics faculty and who is employed during the summer months as district home economist and special demonstrator for the International Harvester Company, will give two lecture-demonstrations. Her demonstration will be on preparing and serving complete meals from the farm frozen food locker and latest information on preparation of foods for the deep-freeze units.

For the health talk to campers, Dr. Donald A. Peterson, Crookston chiropodist, will give an illustrated lecture on foot problems and their correction. In the field of floriculture Ernest Zitzer of the Zitzer Greenhouses of Crookston will give a lecture-demonstration on the growing of African Violets.

In the field of hobby craft, two specialists from the University of North Dakota have been secured. Miss Julia Mattson, assistant professor of ceramics, will give a pottery making demonstration and display an exhibit of pottery made at the University of North Dakota. Robert E. Bergstrom, professor of industrial arts, will give a lecture-demon-

Mrs. Youngren

(continued on page 4, col. 1)

4-H Club Week Scheduled For June 16-21

The annual 4-H Club Week at the Northwest School will be held June 16-21 and some 900 4-H club members from the fifteen Red River Valley counties are expected to attend. The club members from the counties will come in two groups. Group one (June 16-18) consists of club members from southern counties of the Red River Valley and will include: East and West Polk, Norman, Mahnomon, Clay, Becker, and East and West Ottertail. Counties included in group two (June 19-21) are Clearwater, Red Lake, Pennington, Marshall, Kittson, Roseau and Lake of the Woods.

Large Attendance At Cattle Feeders' Day

Some two-hundred and fifty farmers from the Red River Valley area attended the Cattle Feeder's Day at the Northwest School and Experiment Station on April 4. O. A. Flaata, Fisher, president of the O. A. Flaata Farms Company, who has pioneered work in feeding of potatoes to livestock, spoke on the subject "Outlook for Potatoes and Other By-Products for Feed." L. S. Doran of St. Paul, of the Central Livestock Order Buying Company, pointed out that well-fed, finished steers command a profitable premium over the lighter weight steers on the market. With the increase in the cattle population in the country as a whole and the shortage of feed before the next corn crop, Mr. Doran was of the opinion that feeder cattle prices for next fall would be lower and make a more attractive investment than was true in 1951.

The extent and scope of the experimental work with beef cattle at the central and branch Experiment Stations in Minnesota was presented by T. H. Fenske, associate director of agricultural administration, University of Minnesota, St. Paul. E. F. Ferrin, chief of the Division of Animal Husbandry and A. L. Harvey, in charge of beef cattle operations, both from University Farm, St. Paul, discussed the feeding of potatoes to livestock and the results of the four years' potato feeding projects at the Northwest School and Experiment Station. Conclusions drawn by A. L. Harvey were: 1. Gains of about 2

Krilium—A New Soil Conditioner—Being Tested At Northwest School And Experiment Station

O. C. SOINE

Krilium is a new synthetic organic chemical which is being advertised a great deal as a "soil conditioner" for home gardens, lawns, greenhouses and may be used in the future on farm lands. This new chemical is not a fertilizer and will not add any plant food to the soil. It is a very finely ground grayish powder which has an attraction for moisture. If it is exposed to the air, it will absorb moisture from the atmosphere and turn into a sticky glue-like material.

The Monsanto Chemical Company is putting this product on the market and have conducted field trials for the past few years. They claim their product will change a "problem soil" such as hard clay from a hard-packed mass into a loose, open, friable soil. They also claim that the following benefits can be observed: 1. The soil becomes easier to work because it will remain open, loose, and will not pack into a hard mass. 2. The soil will absorb and retain more moisture because it remains open, loose and friable. 3. Plant roots will penetrate more easily. 4. Soils will have better aeration. 5. Plant food in the soil or fertilizer added to it, are made more readily available.

Krilium must be applied when the top soil is dry and mixed with the 3 to 6-inch layer. If the soil is wet or the weather is damp, the chemical cannot be properly applied.

In our trials here at the Northwest School and Experiment Station, three rates were used, namely: 400, 800, and 1600 lbs. per acre. The chemical was broadcast by hand and disked into the top 4 inches of the soil. The chemical used in these trials carried only 25% Krilium and 75% inert matter.

Wheat is the test crop being used and yields will be taken next fall. It is going to be rather difficult to determine the effect of this product on the soil, but by observations, checking the physical condition of the soil, and determining moisture holding capacity throughout the season, some data will be available next fall to evaluate this chemical.

(By Dr. O. C. Soine, agronomist, Northwest School and Experiment Station, Crookston.)

T.C.A., A New Chemical For Weed Control

O. C. SOINE

The farmer has another ally in his never ending fight against weeds in T. C. A. (trichloroacetic acid) which has now passed the experimental stage. After three years of testing, this chemical has proven its ability to control grassy weeds such as foxtail (commonly called pigeon grass) and quackgrass. Unlike 2, 4-D, it will not control broad-leaf weeds like mustard, pigweed, and ragweed. Another feature of this herbicide is that it can be mixed with 2, 4-D and both chemicals can be applied in one operation for the control of both groups of weeds.

This chemical is rather expensive at the present time selling for approximately 50 cents a pound. But it has proven economical to use on flax and sugar beets where weed control is desirable. When applied at 4.4 to 7 lbs. per acre, it has effectively controlled foxtail without any appreciable damage to these crops. To control quackgrass, T. C. A. is applied at 26 to 70 lbs. per acre depending on local conditions. If the land is plowed so that the quackgrass roots are exposed, the lower rate has proven effective.

The best results in flax have been obtained where T. C. A. was applied when most of the weed seeds have germinated and the flax is in the one to two-leaf stage or less than 3 inches tall. In quackgrass, the best results have been noted where the land was plowed and the herbicide was applied in August to October.

There are a few limitations to the use of T. C. A. Some cultivated crops are severely injured by this chemical and high rates of application leave a residual effect in the soil. Soybeans are very sensitive to injury also to the residual effect for as much as two years after the initial application. Flax and sugar beets show the greatest tolerance to normal rates of application while the following crops are arranged in this descending order: potatoes, oats, corn, barley, wheat, and soybeans. If the 22 lb. rate of T. C. A. is applied early in the fall, the normal crop yields can be expected from flax, potatoes, oats and corn seeded the following spring on the same land.

Trials were conducted last year at the Northwest School and Experiment Station, Crookston, where T. C. A. was applied to Redwood flax at 4.4, 7.0 and 8.8 lbs. per acre. The plots were badly infested with foxtail. The untreated plot yielded 7.3 bu. of flax and 1273 lbs. of weeds per acre. The plot treated with 4.4 lbs. yielded 8.6 bu. of flax and only 137 lbs. of weeds; the 7.0 lb. rate yielded 7.6 bu. and 77 lbs. of weeds; while the 8.8 lb. rate yielded 5.6 bu. and 45 lbs. of weeds per acre.

The dry summer of last year was not conducive to high flax yields, but it did prove again that the 4.4 and 7.0 lbs. rates of T. C. A. proved effective in

(continued in column 3)

F.F.A. Contests Held At Northwest School

The Northwest School was host to contestants from agricultural classes in the high schools of F. F. A. District No. 1 on April 23. A total of twenty-five teams and four orators competed in the various contests held during the day at the Northwest School.

The dairy judging team from Ada High School was the highest ranking team among the teams competing in that contest, with the team from Greenbush ranking second, and Warroad taking third place. Melvin Braaten of Greenbush was top-ranking individual in the dairy judging. The winning team received a bronze plaque award from the Red River Valley Dairymen's Association.

In the general livestock judging, the team from Climax High School ranked first followed in order by teams from Greenbush, with Roseau and Kennedy tying for third place. Tom Mortenson of Kennedy was high individual in general livestock judging. The winning team received a bronze plaque award from the Red River Valley Livestock Association.

Five schools competed in the F. F. A. Soils Contest. The team from Stephen High School ranked first in the Soils Contest followed in order by teams from Roseau and Climax. The F. F. A. plaque was awarded the winning team.

In oratory, Wayne Carlson from Lancaster, speaking on Conserving Our Rural Human Resources won top honors and will represent the district at the State Contest in May. Erland Carlson of McIntosh won second place in the oratorical contest.

T. M. McCall, superintendent of the Northwest School and Experiment Station, was presented the F. F. A. gold pin and designated as District I Honorary Farmer for outstanding leadership in agricultural education.

O. M. Kiser and Lavon Sumption of the Animal Husbandry Department at the Northwest School conducted the livestock judging contest and they were assisted by A. B. Salmela, animal husbandry man from North Central School and Station, Grand Rapids. O. C. Soine, agronomist at the Northwest School and Station, conducted the Soils Contest. Resident members of the faculty from the Northwest School assisted with the contests.

controlling foxtail without injury to the flax crop.

(By Dr. O. C. Soine, agronomist, Northwest School and Experiment Station, Crookston.)

PLAN TO ATTEND THE
ALUMNI REUNION, JUNE 28

Nine Students Top Honor Roll With "A" Rating

Nine students at the Northwest School of Agriculture topped the winter term Honor Roll with straight "A" averages. Students who made the straight "A" averages for the term were: FRESHMEN—Marilyn Balstad, Fosston; Henry Landin, Warroad; Donna Miller, Crookston; Darlene Wavra, Euclid; SOPHOMORES—Neal Bjornson, Arvilla, No. Dak.; Elmer Halstensgaard, Bejou; Adelle Larson, Twin Valley; SENIOR—Rubin Haglund, Roseau; SPECIAL—Sheldon Roningen, Fisher. A total of thirty-seven students made the Honor Roll and sixty received recognition for High Scholarship.

Honor Roll students (2.50 points or above) include: FRESHMEN—Marilyn Balstad, Fosston; Henry Landin, Warroad; Donna Miller, Crookston; Darlene Wavra, Euclid; Kent Omdahl, Warren; Wayne Erickson, McIntosh; David Mickelson, Menahga; Paul Tollefson, Beltrami; Henry Hettwer, Mahanomen; Willis Finifrock, Barnum; Keith Freeland, Cummings, No. Dak.; SOPHOMORES—Neal Bjornson, Arvilla, No. Dak.; Elmer Halstensgaard, Bejou; Adelle Larson, Twin Valley; Paul Bergeson, Fertile; Mary Benson, Grygla; Evelyn Holy, East Grand Forks; Lorraine Zipoy, Angus; Merlin Skretvedt, Gary; Dale Nesland, Thompson, No. Dak.; Dean Skjerven, Grafton, No. Dak.; Norma Nielsen, Hackensack; JUNIORS—Ronald Olson, East Grand Forks; Joanne Porter, Grandin, No. Dak.; Mildred Peterson, Plummer; Darrell Hausmann, Hillsboro, No. Dak.; Robert Hausmann, Hillsboro, No. Dak.; Gelene Balstad, Winger; Elaine Thurteen, East Grand Forks; Edward Graham, Petersburg, No. Dak.; Janave Moser, Salol; SENIORS—Rubin Haglund, Roseau; Mary Ann Auer, Waubun; Edith Bergeson, Fertile; Carol Green, St. Thomas, No. Dak.; Dora Ann Pelowski, Greenbush; SPECIAL—Sheldon Roningen, Fisher.

High Scholarship students (2.00 points to 2.49 points) include: FRESHMEN—Bernice Jones, Goodridge; Stanley Johnson, Menahga; Donald Wald, East Grand Forks; Leonard Bailey, Halstad; Robert Dittmer, Gary; Marlus Love, Euclid; Lowell Hanson, Mahanomen; Glenn Filipi, Angus; Jeanne Vanek, Angus; Harlene Hagen, Gatzke; James Olson, Reynolds, No. Dak.; Donald Craigmile, Hallock; Arnold Skeie, Winger; SOPHOMORES—Arlys Iwen, Arthur, No. Dak.; George Hendrickson, Crookston; Richard Kluzak, East Grand Forks; Neil Hegg, Reynolds, No. Dak.; John Miller, Twin Valley; Raymond Beck, Sabin; Donald Hettervig, Hillsboro, No. Dak.; Thomas Nisbet, Fisher; Gordon Syverson, McIntosh; Harlan Miller, Crookston; Dean Viker, Halstad; Carol Bourgeois, Baudette; Joseph Dahlin, Red Lake Falls; Carol Ewing, Crookston; Ernest Taus, Angus. JUNIORS—LaVerne Stromstad, Beltrami; Dayle Kainz, Goodridge; Robert Dahl, Kennedy; Estelle Flatten, East Grand

(continued on page 4, col. 3)

Commencement At Northwest School, March 27; Diplomas And Special Awards Presented

The 44th annual Commencement exercises were held at the Northwest School of Agriculture on March 27. A total of 155 students graduated from the Regular and Advanced courses. Herman F. Skyberg of Fisher, a member of the University Board of Regents and a Northwest School alumnus, delivered the Commencement address on the theme "What the Future Holds For You." Greetings from the University of Minnesota were given by T. H. Fenske, associate director of agricultural administration and acting director of the Minnesota Experiment Station. The Reverend Kenneth R. Johnson of Crookston gave the invocation. The valedictory address was given by Edith Bergeson of Fertile, valedictorian. Charles Holmquist of Hallock sang a baritone solo and the school choir sang two numbers. Superintendent T. M. McCall presented the diplomas and scholarship awards.

Edith Bergeson of Fertile, valedictorian, received a medal and was also named for the Citizenship award for girls; Perry Brantner of Georgetown received the Citizenship award for boys. Honorable mention in Citizenship went

to Rodney Mosher of Beltrami and Arlys Eisert, Euclid.

Caleb Dorr Progress Scholarships, a cash award of \$30.00 for greatest progress in the Freshmen, Sophomore, and Junior classes, were awarded to: Freshmen—Wayne Erickson, McIntosh; Marilyn Balstad, Fosston; Sophomores—Richard Kluzak, East Grand Forks; Adelle Larson, Twin Valley; Juniors—Ronald Olson, East Grand Forks; Helen Gustafson, Oklee.

The O. W. Peterson Memorial Fund award, a gold medal award for the greatest progress in voice instruction, was awarded to Yona Magnusson of Roseau. The Caleb Dorr gold medal for greatest progress in piano instruction was awarded to Adelle Larson of Twin Valley. Kenneth Ewing of Beltrami won the medal and trophy award for highest honors in dramatics and speech.

Mary Ann Auer of Waubun, salutatorian, was awarded a silver medal for scholarship. Scholarship certificates for four consecutive semesters on Honor Roll mentions were awarded to: Gelene Balstad, Winger; Darrell and Robert Hausmann, Hillsboro, North Dakota.

Miss Larsen Awarded Scholarship For Foreign Study

Miss Margaret Larsen, the senior member of the English faculty of the Northwest School, was honored by her alma mater, St. Olaf College, by receiving the Schaefer Scholarship for foreign study this summer. In reply to a request for information about the scholarship and her plans for the summer, Miss Larsen made the following reply: "On March 31, I was awarded the Schaefer Scholarship enabling me to study at the University of Oslo Summer School at Oslo, Norway, from June 21 to August 2. My studies will be in the fields of history and sociology.

Upon the completion of my work at the University of Oslo, I intend setting out on an eleven-day coast tour of Norway as far North as to Tromso, Norway. I also hope to visit Denmark, Sweden, and the British Isles. This trip will give me an opportunity of meeting my Norwegian relatives as well as allowing me to visit those historical places which are associated with both Norway's history and that of my ancestors. Two places of special interest will be a visit to the Kongsvinger Fortifications which were under the command of my great-grandfather Oberst Guillaume de Sissener in the early 1800's and the place of the signing of Norway's Constitution—Eidsvold Verk. Eidsvold Verk was owned in the 1600's by a relative named Kjeld Stub. Later on it was owned by my grandfather and great uncle.

I am sailing on the S. S. Stavanger-

(continued on page 4, col. 3)

Welding Clinic Held April 7-8

The third annual Welding Clinic at the Northwest School and Experiment Station was held on April 7 and 8.

On April 7, the clinic was opened with an evening session with films and illustrated lectures on basic principles of welding. On April 8, there were lecture-demonstrations on gas welding and practice, arc welding and practice, bronze welding, cutting metals (gas cutting torch, arc welder), welding white metal and aluminum, welding cast iron, and an open forum.

H. W. Soderburg, welding instructor at the Northwest School, was assisted by A. B. Rolfe, welding instructor at the West Central School of Agriculture, Morris, in conducting the clinic.

4-H Club Leaders Attend Tractor Clinic

Twenty-two 4-H club leaders from fourteen counties attended the annual district 4-H tractor maintenance clinic at the Northwest School on March 31-April 2. The 4-H leaders, upon their return to their local groups, were to pass on what they had learned to other 4-H members.

Sponsored by the Northwest School and Experiment Station, the Agricultural Extension Division of the University of Minnesota, and the Standard Oil Company, the school was one of three held in Minnesota to train farm youths in tractor care.

Wm. Barron represented the Northwest School on the teaching staff at the clinic.

LARGE ATTENDANCE AT CATTLE FEEDERS' DAY

(continued from page 1)

pounds per day per steer can be expected from feeding potatoes and oat straw; 2. Steers will consume from 46 to 74 pounds of potatoes per head per day; 3. Addition of grain to the potato ration increased efficiency and utilization of feeds; 4. Beneficial effect was noted from the addition of a protein supplement; 5. Steers fed potatoes made cheaper gains than were obtained with grain rations alone; 6. Potatoes are worth from \$.40 to \$.70 per hundred pounds as feed for steers; 7. Oat straw was more economical as feed than brome grass or alfalfa when fed in conjunction with potatoes; 8. The sliced potatoes, when fed to steers, gave poorer results than whole potatoes; 9. Choking hazards in feeding whole potatoes eliminated by use of a bar over feeding trough; 10. 200 days required to finish medium-grade steers when fed potatoes; 11. Potato-fed steers were "trim" in appearance; 12. Urea in feed was responsible for an increase in the amount of feed consumed but increased the cost of feed per pound of gain; 13. Margin over feed cost per head in 1952 trials varied from \$14.02 in Lot I to a gain of \$21.92 in Lot II.

O. M. Kiser, local leader of the potato feeding project, H. D. Fausch, and Lavon Sumption, all members of the staff of the Animal Husbandry Department at the Northwest School and Experiment Station, conducted the discussions of the feeding trials at the feed lots. Superintendent T. M. McCall presided at the meeting.

INTERESTING PROGRAM ARRANGED FOR WOMEN'S CAMP

(continued from page 1)

stration on handicraft art in leather and metal.

Miss Charlotte Kirchner, specialist in interior decorating from the Home Economics Agricultural Extension Service, University Farm, St. Paul, will demonstrate drapery materials and their use in the home. A new feature of the 1952 program will be a dramatic reading entitled "Life With Mother" given by Mrs. Paul C. Thomas of Fargo, North Dakota, well-known dramatic reader. She will also give a travel talk on her recent trip to Europe.

Handicraft work offered daily will include work with plastics conducted by A. M. Foker and H. W. Soderburg, and the making of ornamental candles in charge of Mrs. Harold Rosendahl of Ada. A feature of the handicraft period in horticulture this year will be demonstrations on pruning, spraying, and caring for ornamental shrubs conducted by B. C. Beresford and Superintendent T. M. McCall.

Miss Retta Bede, of the Northwest School faculty, will serve as camp leader again this year.

Northwest School Briefs

***News regarding Northwest School Alumni and Former Students:

***Marlys Munson, a sophomore in the College of Home Economics, University of Minnesota, St. Paul, was recently elected president of the Young Women's Christian Association of the college.

***John A. Gronner, who has been living in Topeka, Kansas, for a number of years, has moved to Minnesota with his family. His new address is Green Acres, Underwood, Minnesota.

***Pvt. Kenneth Miller of Crookston was home on leave recently after completing his training at the Aberdeen Proving Grounds in Aberdeen, Md. He reported to Camp Kilmer, N. J., on May 12 for assignment to European duty.

***George S. Vasilakes, yeoman, third class, USN, of Lengby, who is serving with Scouting Squadron 23, was among the navy men recently advanced to their present rates while stationed at naval air stations in the San Diego, California, area. The advancements are determined by competitive navy tests.

***Mrs. Joyce Youngren, an instructor in home economics at the Northwest School the past school year, is serving as district home economist for the International Harvester Company, during the summer months. Her headquarters are at Grand Forks, North Dakota.

***Recent campus visitors: Miss Jean Kjorlie, of Fargo, North Dakota, and Mrs. Joyce Youngren of Grand Forks, North Dakota, on May 19.

***Recent campus visitor: Charles Vind, of Crookston, recently completed his medical basic at Camp Pickett, Virginia. He has been transferred to Fort Sam Houston, Texas, for advanced schooling in medical technician work.

***Harvey P. H. Johnson is assistant general agriculturist with the American Crystal Sugar Company, Denver, Colorado.

***PFC Peter Schirrick, Jr., of Red Lake Falls has recently been transferred to Lowry Air Force Base, Denver, Colorado, where he is continuing his technical training in electronics and armament.

**Lloyd Bolstad is now living at Cloquet, Minnesota, where he is serving as foreman at the Colquet Forestry Experiment Station.

***NEW ADDRESS: Cpl. Daniel J. Whalen, U. S. 56092060, Co. "C", 48th Armored Infantry Battalion, Camp Roberts, California.

***Ruth Emerson, a former instructor in music at the Northwest School, is now an instructor in the Duluth Public Schools. She is a member of the Duluth Symphony orchestra.

***Elsie Kingston, a former instructor in home economics at the Northwest School, is an instructor this year in the public schools at Lakefield, Minnesota.

Marriages

***Rose Fortier of Gentilly to Elvin R. Moran of Crookston on April 22 at (continued in column 3)

NINE STUDENTS TOP HONOR ROLL WITH "A" RATING

(continued from page 3)

Forks; Virginia Webster, St. Vincent; Duane Halstenggaard, Fertile; Ralph Jenson, Reynolds, No. Dak.; Helen Gustafson, Oklee; Doris Tollefson, Beltrami; Arden Lindemoen, Warren; Gloria Paseka, Georgetown; Paul Specht, Mahnommen; Helen Overgaard, Dalton; Richard Swenson, Angus; David Rambeck, Hensel, No. Dak.; Richard Donahue, Manvel, No. Dak.; Robert Kresl, Angus; SENIORS—Arlys Eisert, Euclid; JoAnn Flatten, East Grand Forks; Bergit Johnson, Fisher; Betty Ann Johnson, Pelican Rapids; Vilma Zak, East Grand Forks; Patricia Erickson, Baudette; Joyce Flatten, East Grand Forks; Betty Mae Jamieson, Park Rapids; Kathryn Jensen, Underwood; Steffi Kirchert, Minneapolis; Leroy Krbechek, Goodridge; Burnette Vesledahl, Winger; Maurice Greskowiak, Crookston; Dorothy Didrikson, Badger; and Peter Engestad, Thief River Falls.

NORTHWEST SCHOOL BRIEFS

(continued from column 2)

Gentilly. They are making their home in Crookston.

***Delores MacRae, of Crookston, to Dennis K. Reimann of Fertile on April 19 at Crookston.

***Alice McDonald, formerly of East Grand Forks and recently of Crookston, to Lyle L. Davis, of Fisher and Crookston, on May 24. They will make their home in Crookston.

***Cora Kompelien of Redby to Melvin Flaskerud of Fosston, on March 23, at Fosston. They are making their home at Fosston.

***Marlys Erle of Oak Island to Duane Brewster of Warroad.

Births

***To Mr. and Mrs. Miles Aakhus (Dorothy Kolling) a daughter Doreen Carol, on March 12.

***To Mr. and Mrs. Edward McMillan, a son Robert John, on March 26.

Deaths

***Chris Fossbakken of Fosston on March 25, at Fosston, Minnesota.

***Ordean C. Jensen of Borup on May 10 at Ada, Minnesota.

ALUMNI REUNION, JUNE 28

(continued from page 1)

gord, Lavon Sumption, Jens Bolstad. Superintendent T. M. McCall, ex-officio member of all committees.

Officers

Officers of the Northwest School Alumni Association are: David Short, Angus—president; Armin Ross, Fisher—vice-president; Berneil Nelson, Crookston—secretary; Charles Vind, Crookston—treasurer.

MISS LARSEN AWARDED SCHOLARSHIP

(continued from page 3)

fjord on June 11 from New York. My time of departure from Norway will be on September 17."
